THREE NATIONS HOVER ON BRINK OF MAELSTROM

**Brazil, Norway and China
Draw Nearer to Great
Conflict**

**EUROPEAN SITUATION IS
STILL OBSCURED BY SILENCE**

**Conditions In Germany and
Austria Unknown—Mili-
tary Deadlock Unbroken**

(ASSOCIATED PRESS TELEGRAM)
New York, May 3.—Brazil has drawn one step nearer to war with Germany and today is one of three countries who are hovering on the brink of the maelstrom which has convulsed two thirds of the world. Norway and China are the two other countries which may shortly be added to the ever lengthening list of Germany's foes. Two events have happened in Brazil which may easily form the impetus to the remaining step on the road to war. Dr. Lauro Muller, Brazilian foreign minister, has tendered his resignation on the eve of the day set for the Brazilian Congress to decide whether the republic shall draw its sword. Dr. Muller has been persistently reported as if, not equally pro-German, at least a firm opponent of hostilities between Brazil and the Teutonic empire. His resignation coincides with an order by President Braz detaining the dismissed German minister. The order was issued on receipt of news from Berlin that the Brazilian minister in Germany had been refused permission to leave the country.

The possibility of Norway's entrance into the ranks of the allies is based on the havoc wrought among the Norwegian mercantile marine by German submarines. Norway, prior to the war fourth among the world's sea-faring nations, has suffered so heavily from the ravages of the U-boats that her shipping is actually threatened with extinction. The bitterness among the Norwegians over German war methods is growing rapidly and many voices are urging that she could not be worse off as a belligerent and might find compensation if peace found her in the lists with the entente.

All reports from China agree that the advocates of war are in majority at Peking but apparently the president is still reluctant to take the fateful step. It has been reported that Japan was unwilling that China should enter the struggle but the Japanese foreign office has officially denied this.

In the meantime the entire situation in Europe remains obscure through conflicting reports and the extraordinary efforts of the censors, especially in the realms of the Central Powers. The only definite fact in regard to conditions in Germany is that a political crisis exists and that the antagonism between the parties has blazed out with a violence unknown since the beginning of the war. Chancellor von Bethmann-Hollweg is the target for all shafts but apparently can rely only on a lukewarm support from the moderate Socialists. There is no light whatever on the strike situation and no reliable news of any kind from Austria.

The deadlock on the western front continues and the whole military situation is veiled in uncertainty. The British continue to make headway in Mesopotamia, but this is offset by unexplained reports of a Russian retreat in the Caucasus. If the reports are true the Russians are withdrawing with no serious fighting and in the face of the most successful campaign yet undertaken against Turkey.

SOLD STOLEN GOLD TO U. S. GOVERNMENT, EIGHT ARE ARRESTED

(ASSOCIATED PRESS TELEGRAM)
Cheyenne, Wyo., May 3.—Eight men are under arrest today on a charge of conspiracy to defraud the United States government of \$200,000 through the sale of stolen high grade gold ore. The charge of conspiracy to defraud the government, it was explained by the federal officials, was based on the fact that the men's operations placed the government in the position of receiving stolen property.

Five of the men were taken into custody here last night, one in San Francisco, one in Denver and one in Victor, Colo.

JEWISH BAKERS QUIT.
(ASSOCIATED PRESS TELEGRAM)
Cleveland, O., May 3.—All Jewish bakers were closed here today pending settlement of a dispute between the master bakers and their employees. The master bakers claim two hundred bakers went on strike because the new agreement to be signed May first failed to provide for work stopping at midnight in bakeries.

AID JEWISH RELIEF.
Dayton, O., May 3.—Following an address by Rabbi Stephen A. Wise, here last night, it was announced today that \$25,000 were subscribed by local citizens for the Jewish War Relief Fund. This was the amount Dr. Wise had sought here. More than two thousand persons heard him speak.

278 SOLDIERS DROWN WHEN TROOP SHIP SINKS; OTHER BOATS DESTROYED

(ASSOCIATED PRESS TELEGRAM)
London, May 3.—The British transport Arcadian was sunk by a submarine April 15. It is believed 279 men were drowned.

AMERICAN VESSEL LOST.

(ASSOCIATED PRESS TELEGRAM)
Washington, May 3.—The American sailing vessel Margaret was destroyed off the Irish Coast on April 27 by a submarine, being set on fire. No mention of loss of life is made. There are several sailing vessels that name.

ANOTHER TANKER SENT TO BOTTOM.

(ASSOCIATED PRESS TELEGRAM)
Philadelphia, May 3.—The British tank steamship British Sun, owned by the Sun Oil Company of this city, and leased to Great Britain, has been submerged and sunk, probably in the Mediterranean, according to a cable received today by Howard N. Pew, president of the company. The crew was saved.

THREE DROWN ON ROCKINGHAM.

(ASSOCIATED PRESS TELEGRAM)
London, May 3.—Three men were drowned by the sinking of the American steamer Rockingham by a German submarine, survivors who reached land today reported. No word has been received of the boat containing 13 missing men. There were 12 naval gunners on board.

THOMAS DIED OF EXPOSURE.

(ASSOCIATED PRESS TELEGRAM)
London, May 3.—Captain S. S. Harris and eight other survivors of the American tank steamship Vacuum, sunk by a German submarine, arrived today at (deleted by censor) suffering severely from exhaustion and exposure. Lieutenant Thomas, U. S. N., who was in command of the gun crew on the Vacuum, died of exposure on Sunday morning in the captain's boat. His body was buried at sea.

The captain's boat was overturned three times and the men had a terrible battle for life. The survivors will be unable to travel before Saturday.

PREMIER'S SOLDIER SON TAKES BRIDE

Major Richard Lloyd George and his bride.

Major Richard Lloyd George, eldest son of David Lloyd George, premier of Great Britain, recently became the husband of Miss Roberta McAlpine of Tottenham, Hertfordshire. The bridegroom had been convalescent for some time and was staying at Bath, where the marriage took place. The premier and many prominent personages were present at the ceremony.

TORE FLAG FROM MAN'S COAT LAPEL; IN JAIL ON CHARGE OF DISLOYALTY

The first act of alleged disloyalty was reported to Police Chief James Sheridan yesterday afternoon and that official immediately swore to an affidavit charging Fred Oldham with the offense. He was arrested this morning by Officers Hurlbaugh and Williams and will be arraigned before Mayor R. C. Bigbee tomorrow morning at 8 o'clock, at which time his hearing will be set in case he pleads not guilty.

The act of disloyalty on the part of Oldham is said to have taken place in

the Warden Hotel yesterday when he pulled an emblem of the American flag from the coat lapel of Mulligan, at the same time remarking: "Take that G—d— thing off if you're going with me." at the same time pulling the emblem off and throwing it in the cuspidor. The penalty for the offense is a fine of \$100 and the costs and thirty days in jail. Chief Sheridan stated today that he had two witnesses who would testify to the facts as stated above. Oldham is 38 years of age and resides in Front street.

GERMANS DETAIN BRAZIL'S MINISTER. DR. MULLER RESIGNS

(ASSOCIATED PRESS TELEGRAM)
Rio Janeiro, May 3.—Dr. Lauro Muller has tendered President Braz his resignation as minister of foreign affairs. The government has received information that the Brazilian minister to Germany has been ordered detained in Berlin and has ordered the detention of Adolf Pauli, German minister to Brazil who is on his way to Uruguay.

Dr. Lauro Muller has been bitterly criticized in Brazil since the relations between the republic and Germany first became acute on the ground that he was pro-German in his sympathies. He is one of the best known statesmen in South America and has made several visits to the United States.

DEATH RATE IN BELGIUM GROWS AS FOOD WANES

**Herbert Hoover Returns to
America to Take Up Con-
trol of Food**

**FEEDS CHILDREN WHILE
ADULTS DIE OF HUNGER**

**Lost Five Steamers Loaded
With Food During the
Month of April**

(ASSOCIATED PRESS TELEGRAM)
New York, May 3.—The German U-boat menace has made the food situation in Belgium and Northern France one of extreme gravity, the mortality among adults in the industrial districts having multiplied by three during March and April, according to Herbert C. Hoover, who arrived here today from Europe on an American ship. Mr. Hoover said he would go immediately to Washington to take charge of the government's food control program.

"Like every good American, I have come to do my share," Mr. Hoover said. "My new duty is too big a proposition to discuss at this time."

At the dock Mr. Hoover was met by Baron Cartier, Belgian minister to the United States who said he came from Washington to express his "thanks and reverence" for the Belgian Relief Commission's accomplishments in this country.

"The food situation in Belgium and Northern France requires every effort we can make," said Mr. Hoover, who does not intend to relinquish his position as head of the Belgian Commission.

"At present it is one of extreme gravity on account of the U-boat menace which has increased alarmingly during the past eight weeks. Wheat and corn are needed badly and also pork and beef. The commission by March 1 had struggled to its feet again after receiving the knockout blow of the submarine decree of February 1. Since March 1 we have lost five loaded boats but in March and April 60,000 tons of foodstuffs were landed. But this 60,000 was 220,000 tons less than we actually required. Because of the shortage, the mortality in industrial districts multiplied by three. The children, however, did not suffer. They are always looked after first. At this time we have only thirty boats. We need seventy."

U-BOAT MENACE MEANS FURTHER RESTRICTIONS

(ASSOCIATED PRESS TELEGRAM)
Washington, May 3.—While members of the entente mission here alarm American officials at the growing inroads of the submarine menace, they do not regard the situation as in any sense fatal. It means in their view a period of very great self-denial and further restrictions, but they do not credit in the least any opinion that it is certain to lead to starvation or the loss of the war.

They are counting on ships, men and money from the United States and possibly a military genius to outweigh the U-boat terror. Critical as the allied situation is made to appear diplomats say it is as nothing to the insuperable difficulties of Germany almost hidden under the censorship.

It is quite possible, they say, that Herbert C. Hoover's figures of 18,000,000 cattle in the Central Empires are correct but a distribution of these and other supplies is almost impossible when Germany's military necessities are so seriously overcrowding the railroads.

SUBSCRIPTIONS TO BIG LOAN POUR IN; ITALY GETS CASH

(ASSOCIATED PRESS TELEGRAM)
Washington, May 3.—Subscriptions to the first \$2,000,000,000 offering of the bonds of the Liberty Loan of 1917 poured into the treasury today at a rate of more than \$1,000,000 an hour while approximately 1,500 banks in every section of the country simultaneously were taking subscriptions over their counters. There was every indication that the huge issue would be far over-subscribed.

Secretary McAdoo today delivered to the Italian ambassador the \$100,000,000 which the government has decided to advance Italy to meet her pressing demand. The \$100,000,000 for France probably will be similarly delivered shortly, bringing the total advanced the allies thus far up to \$400,000,000.

SHAKESPEARE'S DAY OBSERVED.
(ASSOCIATED PRESS TELEGRAM)
London, May 3.—Shakespeare Day was observed today throughout England and France. All the schools in Great Britain held special exercises. The principal celebration took place in King's College, London in the presence of representatives of the United States, Great Britain and France.

CENSORSHIP VIOLATES FREE PRESS GUARANTEE

(ASSOCIATED PRESS TELEGRAM)
Washington, May 3.—Speaker Clark left the chair today to open the fight to strike out the censorship section of the House espionage bill as proposed by Representative Graham of Pennsylvania. The speaker declared the sections was in direct violation of the constitutional guarantee of free speech and a free press.

GLOOMY VIEWS OF OFFICIALS BRINGS STOCK PRICES DOWN

(ASSOCIATED PRESS TELEGRAM)
New York, May 3.—Stock market prices broke sharply at today's opening. The pessimistic views of officials at Washington regarding international conditions caused general liquidation.

Declines of 1 to 3 points were registered at the outset by Bethlehem Steel new stock, United States Steel the shipings, metals, American Woolen, Central Leather and various other issues in the war groups. Rails were equally weak, the leaders averaging one point declines, Delaware and Hudson showing an extreme loss of 3-5-8 at 112.

Secondary offerings were mostly at lower levels.

The morning session was marked by two receding movements and partial recoveries, the second set-back sending prices lower than the first.

In the early afternoon improving tendencies were noted until three offerings of rails, including investment issues caused fresh unsettlement.

Transcontinentals, coalers and New York Central were down 2 to 3 points from yesterday's final quotations and Delaware and Hudson showed an extreme loss of 6 points at 109 1-2 while New Haven at 87 1-2 was within a point of its low record.

HOSPITAL PATIENT KILLED IN WARD; ITALIAN IS HELD

(ASSOCIATED PRESS TELEGRAM)
Toledo, O., May 3.—Nurses and Catholic sisters in charge of St. Vincents Hospital, with fifty patients, were panic stricken and fled in all directions when Gust Dreilas, 38, a patient was shot and killed in his bed at noon today.

It is charged that Joseph Ramosz, 28, did the shooting. Witnesses say that he rushed into the hospital and fired twice at Dreilas at close range and then threatened to shoot the attendants. Two city firemen passing the hospital heard the shot and captured Ramosz as he fled from the building.

Dreilas was foreman of a railroad construction gang. Several weeks ago, when he poured gasoline instead of coal oil on a camp fire, an explosion occurred. Five men were burned, and taken to the hospital. Ramosz was one of them. He was discharged from the institution recently. Dreilas, more seriously injured, was still under treatment.

The cause of the shooting is a mystery.

104 CARS OF COAL IN YARDS FOR TEN DAYS; NO REMEDY

Columbus, May 3.—The Ohio public utilities commission began a campaign today to prevent the tying up of freight cars in railroad yards. Complaint made to Attorney General McGhee that 50 cars of coal had been sidetracked in Columbus yards for a month by one railroad was turned over to the commission. Inspectors found 104 cars that had been on tracks for 10 days but the commission was powerless to take action because they were being used in interstate shipments. The inquiry is being extended with plans for a statewide investigation.

SEVENTY ENEMY SHIPS PREPARED FOR SEA SERVICE

Washington, May 3.—Seventy-one German and Austrian merchant ships seized by the government will be repaired and ready for commission within five months, unless concealed damage is discovered, the Federal Shipping Board estimated today. They will add \$35,722 tons to America's merchant marine. Many of the smaller ships can be made ready for service in less than four months and necessary repair work is now being pushed in private shipping yards.

NEW DEMURRAGE RATES.
Columbus, O., May 3.—New demurrage rates announced by Ohio railroads today were approved by the Public Utilities Commission. Demurrage of \$2 a day for first five days and \$5 thereafter is new rate.

OFF TO CHICAGO.
Washington, May 3.—Members of the French mission leave late today on a special train for Chicago, the first of a tour of the country which will last a week or ten days.

Where Patrol Fighting and Artillery Work is In Progress—French Threaten St. Mihiel**

(ASSOCIATED PRESS TELEGRAM)
New York, May 3.—New branches in the already badly battered German line on the Arras battlefield are being made by the British in a heavy assault launched on a 12 mile front today.

Striking in 3 1-2 miles south of Lens, on the Acheville-Vimy Road, General Haig's troops drove at the Germans all along the line as far south as Croisilles on the Senne River, 1-1-2 miles southeast of Arras. Virtually the whole front at the attack at the beginning of the Arras battle on April 9 was thus under assault by the British infantry.

The attack came at a moment when it seemed as if a deadlock had been established for a time at least, because of the heavy reserves which had been brought up by the Germans and the strong resisting powers they were displaying. Of the initial success of the renewed offensive the official British report speaks positively, recording the capture of a number of strong enemy positions.

Unofficial accounts of the fighting specify British progress at several points. From Arleux, captured last week in the big drive north of the Scarpe, which broke into the Opy line, progress has been made towards Fresnoy, marking a still deeper thrust into the Opy positions.

This operation seems likely to force the speedy evacuation by the Germans of the town of Opy, to which they have been desperately clinging. The British had already advanced south of it when they captured Gavrelle, and now are pressing into the north at Fresnoy.

South of the Arras-Cambrai road the Germans have been driven back from the region of Henin, south of Guemappe, in the direction of Cherisy. Occupation of Cherisy by the British would mark an advance of considerably more than a mile. Correspondents also mention British progress in the Bullecourt region which is south of the Senne, slightly beyond the field of attack mentioned in the official statement.

While not pressing ahead on any wide front, the French along the Aisne sector and in the Champagne are giving the Germans no rest, employing their artillery vigorously and nicking out a section of the enemy line here and there. Last night, in the hills east of Monthaut, where strong German positions were recently taken, an isolated position was reduced and its garrison of more than 200 men captured. German counter attacks in this region were repulsed.

There may be significance in the reports of activity which are coming from the Verdun sector and the lines to the southeast of it. There has been considerable patrol fighting in these regions and especially active artillery work is in progress in the sector of St. Mihiel, where the Germans have successfully maintained a deep salient since early in the war.

ATTACK BEFORE DAWN.
(ASSOCIATED PRESS TELEGRAM)
London, May 3.—The British began another attack this morning. The war office announces that progress is being made.

A number of strong positions already have been captured by the British. The announcement follows:

"Heavy fighting is taking place all along the front from the Hindenburg line south of the Senne river to the Acheville-Vimy road. Our troops are making progress and have already captured a number of strong hostile positions."

There was the usual preliminary tornado of fire from weapons of all calibres and then the equally familiar creeping barrage, working with absolute punctuality as the order to the men to go forward was snapped forth simultaneously down miles of trenches. Thousands of crouching figures formed into regular waves of the advance.

Then came the inevitable deadly rattle of machine gun and rifle fire and the crashing of bursting bombs as the infantry reached the parapet of the first enemy trench.

As to the results obtained, the correspondent adds, reports thus far are vague but the British made progress in several directions—toward Fresnoy and Cherisy and also toward Bullecourt, which is a point on the Hindenburg line.

The German counter attack heavily on Gavrelle and Los. These onslaughts were dealt with satisfactorily by the British gunners.

The new British attack takes in virtually the entire front on which the battle of Arras was begun on Easter Monday and evidently is a major operation. It is the fourth great attack which the British have made along this line. The attacking front is about 12 miles long.

In the attack today the British made progress in the section of Fresnoy and Cherisy, and also toward Bullecourt. Reuter's correspondent (Continued on Page 2, Col. 3.)

EVANGELIST IN ETERNITY SERMON**

audience and they were by no means disappointed in his sermon. Many of the Newark Knights turned out and all that one could see was their waving white flags.

Rev. Grover L. Diehl opened with a short prayer. Then came the sermon extraordinary. Eternity was the subject chosen by the evangelist. That time passes, only too rapidly was impressed upon the minds of the people. "Time is valuable," he said, "and we're responsible for the way in which it is spent. The closer you get to the graveyard the more you appreciate it."

The utter impossibility of realizing the full meaning of the word, eternity, was demonstrated. The evangelist invited his audience to get in a balloon and take an imaginary trip with him through space. He showed the boundless realms of space and told them that this was just a taste of eternity. "And who are you that dare say that you don't need God?" he asked. "You're a fool if you don't believe in God."

Dr. Bromley exploded the Darwinian theory. "God made man, and he didn't make him like a monkey," he declared. "Get that idea out of your heads. I know some of you may look like monkeys, but forget it." And a good-natured roar of laughter followed this sally.

The impossibility of getting away from the final reckoning at the judgment seat was discussed. "To-day (Continued on Page 12, Col. 3.)

"I guarantee my ointment," says Peterson, "to cure eczema; to stop the itching at once and any reliable druggist will cheerfully refund your money if PETERSON'S OINTMENT doesn't do everything I say it will do."

William A. Carley of Franklin, N. Y., is surely a wise man. He writes: "I used PETERSON'S OINTMENT on a little boy suffering terribly with eczema. It did the work."

Then there is Alex. Louttel, a brave fireman of Buffalo, who is glad to write as follows: "I had an old sore on my leg for many years. The best doctors failed. PETERSON'S OINTMENT entirely healed the sore quickly." And from over in Canada comes a letter from A. Blocky, stating: "The best thing I ever hit for itching piles is PETERSON'S OINTMENT." Dandruff Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails. Advertisement.

BRITISH LAUNCH NEW OFFENSIVE IN WEST; PIERCE GERMAN LINE

(Continued From Page 1)

pendent at the British headquarters reports.

The British attacked in the darkest hour preceding dawn this morning, striking at the German positions east of Arras. The infantry assault was delayed until half an hour after the half moon had gone down. The night was clear and starlit and the almost ceaseless flashing of guns gave definite shape to the shadowy outlines of the salient points.

The correspondent says the attack was directed to the taking of certain points of considerable importance and to improving the British line. The British desired to gain complete mastery of dominating positions whence their artillery would be able more effectively to devastate the fresh troops which the Germans continue to throw in.

SPECTACULAR AIR BATTLES MARK NEW BRITISH DRIVE

(Associated Press Telegram)

British Headquarters in France, May 3, via London. (From a Staff Correspondent of the Associated Press)—Another of the continuing British attacks was launched against the Germans early this morning. Hard fighting is in progress under a warm spring sun. There has been no rain for more than ten days now and the battle fields at times are enveloped in dust.

Reports from the battle front are as yet meager, but it appears that satisfactory progress is being made. The attack was on a wide front. At Bullecourt the British took another bite into the Hindenburg line just north of its point of junction with the Drocourt-Queant Switch.

Good progress was also reported early in the direction Cherisy and Fresnoy. Fresnoy is just east of Arleux which was captured last Friday by the Canadians. These two villages having been looped about with intricate trench fortifications form one of the strongest points on the Mericourt-Oppy-Gavrelle line running slightly southwest from Lens to the Scarpe and being one of the last of the older fixed positions protecting the Drocourt-Queant Switch to the Hindenburg line.

The Germans have delivered strong counter attacks at several places, principally against Gavrelle and toward Loos. At all the points attacked and counter attacked heavy fighting is proceeding.

In the meantime the British air men, taking full advantage of the long spell of good weather, are continuing their relentless offensive aloft both by day and by night. Within three days they have accounted for 55 enemy machines and have carried out many enterprises behind the German lines. The German soldiers plainly dislike the continuous presence of the British airplanes, for many unposted letters captured during the infantry attacks dwell upon the uneasiness the machines cause. One man wrote: "The air activity is very great. The English will soon be taking the very caps off our heads."

The daring of the British aviators in flying so low in the enemy country is one of the striking phases of the latter day air tactics. During a recent night raid, with only the stars to guide them, the Britons swooped down upon their diffy outlined targets and dropped their bombs, barely escaping themselves from the upward blast of the resulting explosions.

During this raid the Germans defending their supply depots brought into play a powerful searchlight, whereupon a Britisher promptly flew at it like a giant moth, let loose a light weight bomb directly over it, and the lamp went out to burn no more.

The British air raids on dark nights bring out a great display of enemy fireworks, for in addition to the gunfire and the bursting shrapnel shells, vari-colored rockets are sent hissing indiscriminately into the air. Just now, as the May moon is approaching its fullness and lights the nocturnal way, the raiders go "over the line" to use enemy trains, blow up enemy ammunition stores, rout sleeping enemy soldiers out of their billets, throw enemy transport columns into endless confusion and scatter general demoralization from the skies for hours at a time.

Some of the best fighting the British have had recently has been with a flight of brilliant scarlet German machines. At first there were four or five in the flight and all were handled with consummate skill, indicating that some of the best German pilots had been gathered into this particular fighting unit. At the first encounter the British brought down one of the "Red Devils", leaving the remaining three to scout about the sky for several days. Yesterday the second of the red machines fell in flames, leaving only two remaining.

The second scarlet machine met its fate while helping to defend a large German formation which had been attacked by four British triplanes.

The fight was not ended until six of the enemy machines had been sent down, while all four triplanes returned safely. They reported that the pilot of the crimson scout landed in "hush" with great skill, subsequently entering the combat and being generally avoided, which he could easily have avoided. It was only by the most careful maneuvering that a British pilot finally sent a burst of machine gun bullets into him.

TWO CHILDREN KILLED

(Associated Press Telegram)

Toledo, O., May 3.—Two children on their way to a party were killed at Deshler near here when a buggy in which they were riding last night was struck by a Wabash passenger train. The victims were Chester Stanfield, 15 years old, and his sister, Donna, aged 13.

AMERICAN ROADS TO FURNISH CARS FOR THE FRENCH

(Associated Press Telegram)

Washington, May 3.—Curtailling of passenger train service and shipment of the country's entire output of rolling stock and rails to the allies were forecast today by Daniel Willard in a speech before the National Defense Council of Governors and representatives of state defense councils.

"Already," Mr. Willard said, "the federal council's general railroad board is working on a plan for readjusting schedules. Other nations at war," he said, "have discontinued passenger schedules entirely but the American government hopes to bring the railroads to their highest point of efficiency by eliminating duplication and reducing the number of passenger trains as far as possible without inconveniencing the public."

Of the 14,000 passenger train locomotives in the United States, the railroad board hopes to release 4,000 for freight trains.

"It is vital that France and Russia have locomotives and cars," said Mr. Willard. "We will have to furnish them. How can we do it? We can do it by getting along with what equipment we have and by putting into force measures of greater railway economy."

The general railroad board of five railway presidents who are operating the country's lines as one continental system, is working on these measures now. By reducing the number of ships to load and unload and we will save 245,000 freight cars for one trip a year. Germany has reduced the loading and unloading time limit to six hours. We can reduce our present limit from 48 to 24 hours and although it will cause some inconvenience it is in the interest of all the people."

PROF. VAWTER KNEW OF WIFE'S LOVE FOR GUEST IN HIS HOME

(Associated Press Telegram)

Christiansburg, Va., May 3.—Mrs. Charles E. Vawter was expected to take the stand in the Montgomery county circuit court here today in the trial of her husband, Prof. Charles E. Vawter of the Virginia Polytechnic Institute, charged with the murder of Stockton Heath, Jr., a young clubman in the Vawter home where he was a guest. Unusual interest attached to her testimony because of letters introduced by the state, in one of which Vawter wrote young Heath that he was aware of improper relations between Mrs. Vawter and Heath but that he would not interfere.

"Now you can love her with less fear," said one of the letters, "you are not worrying me, for it is for her happiness, not yours, although I like you very much. You are simply a lucky being."

Further on in the letter Heath was asked to pay a \$63 liquor bill which the writer said he owed a Roanoke firm and the writer mentioned his other debts totalling \$2,600.

"I know what happened Sunday afternoon," the letter said. "I was thought to be asleep but in reality was never more awake. I came to the door and found out for myself what I had suspected for quite a while. Now I am going to give you the surprise of your life. I remember all the years she has had to stick by me when drink made a demon of me, how her love has never faltered. Now mine shall not. I know that you are the only love Rachael has ever shown for any one out me."

The defense turned to a plea of insanity today and Vawter's attorneys began calling alienists.

Dr. A. M. Showalter testified that the letter to Heath supposed to have been written about the middle of last May, taken in connection with previous events, was in his opinion written by a crazy man.

GOMPERS ANGERED BY REFLECTIONS ON LOYALTY TO LABOR

(Associated Press Telegram)

New York, May 3.—Samuel Gompers, president of the American Federation of Labor, testifying today in the trial of Captain Franz Rintelen of the German navy, and seven other men charged with conspiring to commit strikes to destroy the entente allies munition trade in this country, declared that Herman Schulteis and Henry B. Martin, two of the defendants, were known at Washington as "political strikers."

These two men were active with former Representative Frank Buchanan, another defendant, first president of Labor's National Peace Council, in the work of the council, which it was alleged was organized to carry out Rintelen's schemes with money supplied by him. Mr. Gompers said he warned Mr. Buchanan against associating with these two men as he deemed them enemies of labor. When Buchanan discussed the peace council with him, Gompers said he first believed that Buchanan whom he had always considered a "good, big man," had been imposed on but that he began to doubt his sincerity.

Under cross-examination by counsel for Schulteis and Martin, Mr. Gompers conceded that general peace proposals were endorsed by labor.

"Labor has consistently advocated universal peace and general international disarmament," Mr. Gompers said.

In addition to advising Buchanan against the peace council plan Mr. Gompers said he wrote and spoke to other labor leaders, invited to join the move, advising them against it. "I tried to prevent labor from being diverted from its proper purpose," he explained.

Gompers described as "absurd" a question by counsel whether his testimony was colored by the fear that Buchanan wanted to succeed him as president of the American Federation of Labor and whether the witness had desired "to kill him dead" as such a competitor. Mr. Gompers said his incumbency of the office never influenced him in any such way. Another question that aroused Gompers' anger was whether he had ever heard that "Gompers for years had tried to deliver labor to the trusts."

Violently hammering the arm of his chair he said he would not submit to being insulted. No such charge had ever been against him, he declared.

In explaining his attitude toward the peace council plans Gompers said he considered it illegal to interfere with the manufacture and transportation of any article which it is lawful to produce. He said he had also wanted labor men to support the President in maintaining absolute neutrality and that any movement intended to interrupt the transportation of munitions and other supplies was "calculated to bring our country into trouble."

WHOLE NESTS OF U-BOATS LIE IN STEAMSHIP LANES

(Associated Press Telegram)

London, May 3.—American citizens landed during the past few days from vessels sunk by German submarines tell remarkable tales of the strenuous exploits of the U-boats. In one case three under-sea boats appeared simultaneously alongside the ship, one being a submarine chaser 200 feet long and the others old fashioned submarines with a length of about 120 feet.

In another case a German submarine wore an elaborate disguise of a fishing boat. This submarine carried a gun which had a range of nearly five miles.

In at least two cases the crews of vessels sunk by submarines were rescued from open boats by a passing ship only to suffer a repetition of the disaster when the ship on which they had taken refuge fell prey to an under water boat.

A seaman from Pensacola, who was a member of the crew of a Swedish sailing vessel, said: "We were almost within sight of land late in the afternoon when we observed a Norwegian sailing vessel in an encounter with a submarine eight miles away. Approaching that our turn would come next, we prepared a life boat. A 300 foot submarine came up to us in due course and fired three warning shots from its heavy gun.

"We pulled our boat over to the life boat from the Norwegian ship previously sunk and a dozen hours later we were picked up by a British steamer. We had only a brief stay on the British boat, as she was torpedoed the same morning. After a few hours in the life boats were found by a British patrol and landed."

A Philadelphia described the manner in which his steamer escaped being sunk.

"We were attacked by a submarine disguised as a fishing vessel," he said. "She opened fire on us at five miles, sending 15 shots at us and smashing our wireless. She pursued us for an hour. We did not use our gun. Finally a British patrol boat appeared. The submarine submerged, disguised and all, presenting a ludicrous sight as the torpedoing equipment simulating a fishing boat sank beneath the waves.

The captain of an American sailing ship which was sunk ten days ago said:

"Submarines are lying along the sea lanes in real nests. They keep well under the water most of the time, coming up now and then for periscopic observations. By thus conserving fuel the submarines are able to remain away from their base a long time and as they find means of renewing their stores from ships which they sink. The U-boat which sank us had been at it for six weeks."

It's when a fellow is largely made up of brass his friends may be excused for getting their hammers out.

EVERY India Paper SET

Encyclopaedia Britannica

of the new
in the entire world
that is still unsold
IS RIGHT HERE
in America

This great work, written and edited by the scholars of the world, is the accepted international authority on all branches of knowledge. Consequently, it has a large sale in every civilized country.

But of all the sets printed on the famous India paper, the only ones in the world still available are the few thousand now being sold in this country. And these will soon be all gone—a few weeks at the outside will see the very last set sold.

Thousands of sets were sold in Great Britain. Today it is not possible to buy the Britannica in that country except at secondhand and at whatever premium is put upon it.

Every set offered in Australia is gone.

South Africa is "sold out."

India is "sold out."

Japan, where more sets of the Britannica were sold than of any reference work in any language, is "sold out."

Argentina, which led all Latin-America in sales of the Britannica, is "sold out."

In Canada, the only sets that can be purchased must be sent from the United States.

You have the opportunity NOW to acquire one of these last sets of the Britannica printed on genuine India paper. But only for a few weeks longer at most—because the remaining sets are selling fast. Orders are coming in from all parts of the United States and Canada at an increasing rate from day to day.

If you let this chance pass, you will never have another to buy this world-famous work printed on the beautiful India paper.

It is NOW or never if you want a set.

More than 175,000 sets have already been sold in America—only a small fraction of the entire stock remains. You cannot delay and expect to get a set. Therefore we urge you to act immediately.

No one should buy the Britannica unless he is convinced that it would be useful to him. And in your case YOU are the one to decide how much this Library of Knowledge would help you in your business or work.

You can see sets and leave orders at:

RED CROSS SECRETARY MAKES APPEAL

The board of directors of the Red Cross wish to publicly acknowledge the generosity of the business firms in this city.

Everywhere that our representatives have gone they have met with the utmost courtesy and no matter how great a favor they have asked it has been granted freely and gladly.

We wish especially to thank the following: The Arcade Realty Company, for the use of the room, No. 16 Arcade where the headquarters are located; the Republican executive committee for the use of their office in the Rider block as a work room; the Singer Sewing Machine Company for the indefinite use of three machines in the work room; Besanency Bros., J. Gleichauf, Stewart Bros. & Alward Co., for the loan of office furniture; The Newark Electrical Co., for drop light, bulbs and shades; The Ohio Light and Power Co., for free light; The Public Welfare Bureau, the use of a typewriter; Mr. J. J. Carroll for Victrola boxes for the storage of supplies; Mr. T. M. Edmiston and Mr. A. J. Norton for office supplies and flags.

If any one wishes to make anything that we might use, or render any service, we shall be very glad to receive it.

Let us wake up and realize the fact that we are facing a great emergency.

The government is now apt to order our men abroad at any moment. We must not let them suffer for lack of hospital supplies as the armies of the allies did in those first dreadful months of the war.

The Red Cross of other nations have more than they can do to take care of their own men. Let us rise up and stand shoulder to shoulder in this work and give the President not 1,000,000 members that he asks for but 5,000,000 or even more. The money will not be wasted and every bit of it is needed.

ALICE G. F. MILLER,
Secretary.

BODY FOUND IN CAR

NOT YET IDENTIFIED

The body of the man found dead in a B. & O. freight car remains unidentified at the undertaking parlors of L. N. Bradley. An effort will be made to bring John Lemon whose address was found on the dead body to Newark from Zanesville. Lemon is serving a sentence at the Zanesville workhouse, but if he can be brought to Newark it is thought he may possibly identify the body.

CHOSEN COMMANDER FOR FORT HARRISON

Col. Edwin F. Glenn.

Indianapolis, Ind., May 3.—Col. Edwin F. Glenn, who is to become the commander of the military training camp to be established at Fort Benjamin Harrison, beginning May 8, is one of the best known officers of the United States army and he has a fine record for efficiency. In army circles he is known as a "driver"—as an officer of much energy and push. His record is one of accomplishments.

In coming to Indiana from the Mexican border, where he has been stationed with the 15th U. S. Infantry for a long time, Col. Glenn will not be a stranger in a strange land because he formerly was stationed at Ft. Harrison as the commander of the 23d U. S. Infantry before it went to the border five or six years ago. The selection of Col. Glenn to command one of the country's military camps is a distinct compliment to him. In military circles it is believed that Colonel Glenn's new and important assignment will eventually lead to his promotion to brigadier general.

TEAMSTERS ASK INCREASE.

(Associated Press Telegram)
Cleveland, O., May 3.—About 650 members of the teamsters' union employed by building supply houses, went on strike this morning, according to union officials. The men demand a wage increase of \$1.50 a week, a closed shop agreement and a ten, instead of an eleven hour day.

250 MEMBERS FOR RED CROSS SECURED AT WEHRLE PLANT

The Red Cross memberships numbered 323 last night, this number including 48 memberships taken by employees of the Licking Creamery company. The number however does not include the 250 memberships secured yesterday at the Wehrle Stove foundry by Misses Mary Sherwood Wright, Mabel Jones and Dorothy Beard. The leaves of the big foundry are still in progress and the solicitors are meeting with encouragement from the employees and management of this big institution.

Opportunity is now given the women of Newark to work not only for a national cause but for a humane cause, which extends beyond the confines of one nation. With the vista before the world of an extended war, the American Red Cross is entering every aid to relieve suffering and distress.

Today the local chapter of the Red Cross opened a work room on the second floor of the Rider building just above the Schaus grocery, and the early morning found a number of women engaged at work with hundreds of yards of materials, which must be converted into hospital supplies.

The women of the city are urged to give at least a part of their time on Thursday, for that is the day the work room will be open, to this so unselfish endeavor. A few hours once a week means but little to the donor, but much can be accomplished in the manufacture of supplies in that city.

The work room is light and airy and well adapted to the work to be done. It will be open on each Thursday from 9 o'clock in the morning until 5 in the evening.

The Newark Chapter of the Red Cross asks everybody to save old newspapers, magazines and junk of all kinds for collection upon a date to be fixed later. The plan is to interest the high school boys in the matter and arrange a date the latter part of the month for collection of the paper, etc. H. D. Emerman of the Newark Iron & Metal company, successor to T. O. Johnson, has volunteered to handle the material without profit to himself.

The officers and directors of the Newark Chapter of the Red Cross are: Rev. L. P. Franklin, president; Mrs. W. C. Miller, secretary; W. W. Ward, treasurer; Dr. W. H. Lewis, John J. Carroll, Mrs. E. C. Wright, Mrs. Edw. Thomas, James R. Fitzgibbon, C. H. Spencer, Wilson Hawkins, R. C. Biggs, Mrs. Frank Agnew, Frank L. Boggs, Edwin C. Wright, W. M. Morgan and Dr. Homer J. Davis.

PREVENT CHOLERA TO INCREASE HOG SUPPLY IN OHIO

Columbus, May 3.—(In view of a probable unprecedented demand for meats, brought about as one of the results of war, general warnings will be sent to farmers of Ohio in bulletins to be issued by the state agricultural department about May 15 to take early steps this year to prevent a spread of hog cholera.

While less than a dozen cases, these all in one county, have been reported, the state veterinarian's office already has compiled information and instructions that it is hoped will minimize losses early this summer. First suggestions are that hog lots be plowed thoroughly and that hog owners be prepared for immediate use of hog cholera serum in event there is evidence of the disease in his community. The veterinarian's office is now prepared to furnish cholera serum which is highly recommended.

It is pointed out that cholera is contagious and that the disease can be spread by streams, birds, dogs and other such carriers and that frequently germs are distributed by the farmers themselves when care is not taken to thoroughly cleanse shoes after an infected district has been visited. Complete destruction by fire of bodies of hogs dying from cholera is urged, as burial very often does not have the effect of doing entirely away with the germs.

NEWARK BOY IS ORDERED TO CAMP OF ENGINEER CORPS

Roy G. Miller, son of Mrs. Mary Miller of the juvenile court, at present employed in Detroit, Mich., by the Packard Automobile Company, has been ordered to Fort Sheridan, Ill., to take an examination to enter that training camp as a member of the reserve engineer corps. Should the young man be successful and pass the rigid examination required he would remain in the training camp for three months and would in all probability be commissioned an officer in the regular army at once.

BACK OF HAND IS TORN AWAY BY LUNGING COLT

Marion Farmer, employed on the farm of Mrs. J. McKim south of Newark, had his right hand so badly lacerated Wednesday evening that it required 20 stitches to close the wound. He was leading a colt from the barn, when the animal reared, catching his hind, and the back of it was literally torn off, young man being thrown.

He came to Newark to the office of Dr. C. F. Lucas where the injury was dressed.

CARDINAL MERCIER SENDS LETTER TO PHILADELPHIA

(Associated Press Telegram)
Philadelphia, May 3.—Smuggled through the German lines in Belgium, a letter from Cardinal Mercier, the famous Belgian prelate, has reached the local Belgian Relief committee, thanking Philadelphia for its birthday gift of \$1500 to the Cardinal last November. The letter is dated February 18, having taken more than ten weeks to come from Malines.

JOFFRE'S CENSORED STATEMENT STILL IN CONTROVERSY

(Associated Press Telegram)
Washington, May 3.—Although the French mission has accepted full responsibility for censoring Marshal Joffre's remarks on the immediate need of sending American troops to France, controversy continues as to whether the expurgation might not have been made as a result of the opposition of the army general staff to sending American troops out of the country at a time when they are wanted for training the new army.

The state department has officially disclaimed any part whatever in the expurgation.

War department officials declined to discuss the incident at all, because it touches on a subject about which the department discourages any speculation at this time. Only today Secretary Baker in an official statement deplored speculation on when American troops were to go abroad and indicated that no final decision had been reached.

The explanation most freely given, is by Emile Hovelague of the French mission, who said:

"We discovered that it might be unpleasant to the war department; that it might react on public opinion. We expurgated the formal statement. We saw that Marshal Joffre had spoken in too definite terms, so a paragraph was struck out."

Marshal Joffre's declaration of the sending of American soldiers immediately, coming at a time when Congress and government officials are confronted with the problem of dealing with Colonel Roosevelt's offer to lead a division to France, if the government will authorize it, has furnished the material for a lively controversy over what the Marshal actually said and who was responsible for expurgating it when his statement went to the public.

SHAM BATTLE IN CITY STREETS STIRS UP WAR SPIRIT

(Associated Press Telegram)
Philadelphia, Pa., May 3.—Recruiting was stimulated here yesterday when 200 marines from the Philadelphia navy yard staged a sham battle in the heart of the city. Ruins of dozens of buildings being razed for the new Parkway formed a war-like ground for the affair, the cellars being used as trenches.

Although the rattle of shots from 200 rifles startled women, the "battle" awakened the war spirit of scores of men and gave the city the biggest crop of recruits for several weeks.

ECONOMY CAMPAIGNS.

Warnings are being issued against
 too hysterical campaign for economy.
 It is argued that if everyone
 begins to save money and stop the
 usual habits of expenditure, it will
 throw people out of work, and cripple
 our industries, thus doing more
 harm than good.

There is truth in this. Yet it is
 very doubtful if such easy spenders
 as the American people are in danger
 of doing this particular thing. If
 the money saved on economies were
 used as it ought to be, the results
 while causing some temporary hard-
 ship, would soon be beneficial.

One of the desirable things to do
 with savings at the present time is
 to put them all into the new
 United States bonds. They will pay
 fair interest, and will be wholly ex-
 empt from taxation. The money
 will be spent mostly in our own
 country, so it will keep our own
 currency busy.

Such purchases of bonds will help
 our allies buy more goods in our
 munition plants, in our shoe and
 clothing factories, and from our
 farms. This will increase the de-
 mand for help and will open posi-
 tions for all idle workers. Further-
 more the new work will be along
 the line of vital needs.

When a luxury producer is turned
 into a food creator, the tendency
 is to reduce the price of food and
 raise that of luxuries. That is
 sound economics and a change that
 is greatly needed.
 Every man who is released from
 the luxury trades can find work on
 a farm, and without going very far
 from home either. Every woman
 released can find work in factories
 and in homes, in restaurants and
 hotels, releasing able bodied men
 who could be raising food. These
 readjustments will cause some in-
 convenience while they last, but
 they will leave the United States in
 far better position to meet the is-
 sues of both war and peace.

TRAVELERS LUNCHEON.

Among the other economy mea-
 sures planned in connection with the
 war, is the proposal that dining
 cars be left off railroad trains. It
 is planned to reduce passenger
 trains as much as possible so as not
 to interfere with freight traffic.

To the travelling people who are
 used to certain regulation comforts,
 this will go hard. It is a pleasure
 to eat in a leisurely fashion in a
 dining car while the country goes
 whizzing by. But people with simple
 tastes will not suffer greatly if
 they have substantial box lunches.

A few years ago it was consid-
 ered bad form and a stingy economy
 to eat a picnic lunch on a train.
 The high cost of restaurant service
 has changed that feeling. Main-
 taining a dining room on the rail-
 road train is a costly and luxurious
 plan, and travellers have to pay well
 for the privilege, as well as reward
 in the water handomely. The
 dining cars are not profitable, and
 the railroads would no doubt be
 glad to cut them off.

U-BOAT MENACE.

The German submarine activity
 is the supreme menace to the allies
 at this stage of the war. The an-
 nouncement of Secretary Lane at
 Washington yesterday that the fed-
 eral government has been informed
 of the loss of 400,000 tons in the
 past week was a distinct surprise to

Plant, plant, plant and reap,

 Houston.

This is the substance of the advice
 given by President Wilson and
 members of his cabinet to the gov-
 ernors and representatives of the 48
 states of the Union gathered in
 Washington yesterday afternoon.
 While the "war school" was in
 progress Secretary of State Lansing
 authorized the publication of a
 statement declaring that the seri-
 ousness of the submarine situation
 cannot be exaggerated and at the
 same time Secretary of the Interior
 Lane told the conference of gov-
 ernors that the great destruction of
 ships threatens the existence of
 Great Britain and France and men-
 aces the United States. Wake up!

FASHIONS AND FRIPPERIES.

The decadence of the American
 "smart set" is often commented on
 —its devotion to dogs instead of
 babies, its lavish expenditures on
 dress and knickknacks, its waste of
 good money on "monkey parties,"
 drink, and high living.

Whatever justice there may be in
 these criticisms, America certainly
 has not as yet descended to the level
 of the frumpies and follies of the
 past, as represented by the fash-
 ionable sets of former times. A
 glance, for instance, at the article
 "Costume" in the Encyclopaedia
 Britannica, with its pictures of men
 and women of fashion in the six-
 teenth and following centuries, will
 convince even the pessimist of the
 truth of this statement.

What American idler could be
 charged with matching in his daily
 routine the "eighteenth century
 lord who boasted to Casanova of his
 changing a shirt several times a day,
 his chin being shaved on each occa-
 sion." Or where is the lady of fash-
 ion in our time who would fairly
 rival the women of George III's
 reign? That age "saw women's
 head-dressings reach an extrava-
 gance of folly passing all that had
 come before it. Hair kneaded with
 pomatum and flour was drawn up
 over a cushion or pad of wool, and
 twisted into curls and knots and de-
 corated with artificial flowers and
 bows of ribbon.

As this could not be achieved
 without the aid of a skilled barber,
 the "hair" sometimes remained in
 this state for several weeks. Ad-
 mitting the fact that our age and
 race exhibit their due proportion of
 follies, there is thus much to encour-
 age us in a slight excursion into the
 history of past absurdities of this
 kind.

MR. BALFOUR'S INTERVIEW.

(New York Sun.)
 Mr. Balfour has scribbled the
 world conference now assembled at
 Washington of mystery and laid its
 purposes open to all to understand.
 His interview deprives the malicious
 of opportunity for misrepresenta-
 tions and will set at rest the doubts
 of the timid. The bogeyman of en-
 tangling alliances he slew with a
 word. The "shallow consideration"
 that arises from treaties is not
 what the British and French states-
 men rely on; they recognize the
 force of common purpose among
 men with a common object.

Without such a statement as this
 of Mr. Balfour's the conference
 might have lent itself to harmful ex-
 ageration, misunderstandings and
 misconceptions. Secretary Balfour
 has encouraged the circulation of
 disturbing reports, the denial of
 which would have been represented
 abroad as evidence of discord among
 the Powers. These possibilities of
 embarrassment and scores of others
 Mr. Balfour effectively disposed
 of by his frankness.

The methods that are necessary
 to accomplish the defeat of Ger-
 many will be the subjects of discus-
 sion at Washington. No ulterior
 motive or plan will be up for con-
 sideration. This Mr. Balfour has
 made plain to all; and that fact and
 the manner of its accomplishment
 give us an excellent idea of the rea-
 sons why Mr. Balfour's statesman-
 ship is held in high esteem at home
 and abroad.

PEOPLE OF GERMANY.

(Savannah News.)
 The people of Germany, according
 to a reasonable interpretation of the
 Berlin situation, are in a dangerous
 mood. Prolonged hunger can nearly
 always be relied on to induce such
 a mood. These people are not at-
 tending to light, and they are
 not at all lacking in intelligence;
 naturally they are beginning to won-
 der where they are being led and
 what compensations will come of
 their bitter sacrifices.

WHERE GERMANY IS WEAK.

(May World's Work.)
 The German fighting machine is
 still in splendid condition. There
 are no signs that this machine is
 wearing down. According to every
 indication, it is still fully equal to
 all its tremendous labors. Danger
 is not in prospect from without the
 wall of trenches and naval guns. It
 is "breathing from within, from the
 ranks of a fagged, dispirited, tor-
 mented people, grown sullen in their
 misery.

A mass of pamphlets and loose
 leaves of the peace propaganda
 are circulated from hand to hand
 among the people. Some of these
 were drawn up in very daring terms.
 A number of them came to my hand
 through a young German Socialist.
 The paragraph below conceals the
 fuse which will ultimately fire the
 blast of revolution:
 "We are winning victories and

bleeding to death. We are devastat-
 ing ever more of our neighbors'
 lands and dying of slow starvation.
 We are defying the anger of a world
 in arms and staring ruin in the face.
 The physical strength of our people
 is exhausting; the financial power of
 our nation is exhausting; our sup-
 plies of raw materials are exhaust-
 ing; our great organizations for the
 work of peace are slowly disinte-
 grating. We must have peace. If
 our government cannot procure us
 peace, what must we do?"

FLOWERS TO VEGETABLES

(New York Times.)
 The Lenox Garden Club of Lenox,
 Mass., whose membership is made up
 of many wealthy families from New
 York and Boston and which in the
 past has taken prizes at all the flower
 shows in the East this year will raise
 corn instead of chrysanthemums,
 beans instead of begonias, and
 potatoes instead of carnations. The
 work will be under the expert direc-
 tion of Dr. William Gilman Thomp-
 son, who is connected with the Bronx
 Botanical Gardens.

At a meeting of the members of
 the club held recently at the resi-
 dence of Dr. Thompson, No. 61 West
 Forty-ninth street, the sentiment was
 that the Lenox Garden Club should
 turn its energies from decorative
 comparatively useless work to more
 practical and productive labor. It
 was decided that the members would
 plant the land previously devoted to
 fancy flowers to vegetables. It also
 was decided to materially curtail the
 entertainments of the colony in order
 to avoid all unnecessary expense.

USE OF ENEMY MERCHANT- MEN.

(Pittsburgh Gazette Times.)
 No delay should be permitted in
 passing through Congress the reso-
 lution to authorize the President
 to requisition enemy merchant
 ships in American ports—if such a
 resolution is necessary. That the
 President wants authority to make
 use of these vessels is contrary to
 common belief. In any event, the
 emergency is such they should be
 placed at the disposal of the nation.

Discount as one will the German
 announcement that in two months
 submarines destroyed 1,000,000 tons
 of shipping, the fact remains the toll
 taken by the U-boats has been enor-
 mous and is causing pinch in Eng-
 land and France. If the German
 campaign is not overcome, either by
 effective procedure against the mer-
 ciless submarines or by increase of
 cargo carriers, the difficulties of
 beating Germany will grow tremen-
 dously. It is admitted no means has
 been found successfully to combat
 the U-boats. The right thing, then,
 is to put more ships in the transat-
 lantic service. We have undertaken
 to construct a huge fleet of wooden
 vessels, but more immediate relief
 is needed. The German and Austrian
 merchantmen are in our harbors
 provisionally. There can be no
 moral objection to our making use
 of them. They should be put in
 condition at once—laden with sup-
 plies for our allies and started on
 their way.

BREAKING SOLID EAST.

(Cleveland Plain Dealer.)
 The action of the Rhode Island
 Legislature in granting Presidential
 suffrage to the women of the State
 will be ranked as an important step
 in the history of the suffrage move-
 ment.

For a long time the suffragists
 met with no success except in the
 mountain and prairie and Pacific
 States. The winning of Illinois,
 the first State east of the Mississippi,
 marked something of an epoch. Then
 came Arkansas, breaking the Solid
 South, where the suffrage fight
 seemed most hopeless. And now
 Rhode Island, the first suffrage State
 east of the Appalachians, breaks the
 Solid East. There remains no well-
 defined section of the country in
 which suffrage has not gained a foot-
 hold.

Illinois, Arkansas and Rhode
 Island will be remembered as im-
 portant States in the annals of the
 long contest for equal political rights
 for women. The will stand almost
 in equality with Wyoming, the first
 State (it was then a territory) to
 take the plunge.

EYES ON THIS NATION.

(Columbus Dispatch.)
 The eyes of all peoples longing to
 be free are upon America. No one
 can doubt it who reads the publica-
 tions of the Poles and Armenians or
 the expression of the Jews, the Syrians,
 the Hungarians, the Serbians
 or the Belgians. The Chinese and
 Russians are modeling their govern-
 ments on the American pattern.
 From Great Britain, France and Italy
 —from every spot of earth except the
 dark spots of anarchy—comes the
 voice of praise and hope.

It is not a time for boasting or
 vainglorious art. It is an hour for
 serious thought of the responsibility
 that is laid upon this nation. It is
 a time for action with "malice to-
 ward none and charity for all"—a
 time for wisdom and for deeds that
 vitalize good will.

It is a time when the republic
 must put on its armor and, in so do-
 ing, correct its own injustices. If
 the republic fails now, the just hopes
 of millions not of the republic will be
 crushed.

Break With Turkey.
 The United States will now un-
 doubtedly recognize the British pro-
 tectorate of Egypt, heretofore with-
 held because of friendly relations
 with Turkey. It is also expected that

ONE OR THE OTHER, BOYS

America will pronounce in favor of
 the erection of an independent Jew-
 ish state in Palestine, the character
 of the government to be republican.
 The State Department will also very
 likely recognize the new kingdom of
 the Arabs who rebelled against Otto-
 man rule and who are now co-op-
 erating with the British against the
 Turks in Palestine.—Buffalo Com-
 mercial.

The Modern Army.

The British army was built up out
 of men who were utterly ignorant of
 war, who had never learned to march
 and who, for the most part, had
 never fired a gun.
 This success in building up a great
 army out of raw recruits means the
 downfall of militarism. It is evident-
 ly an economic waste to support a
 great standing army in times of
 peace, when a new army, just as
 good, can be constructed from men
 who had no previous military train-
 ing.—Anaconda Standard.

Cities Everyone Should See.
 There are at least six cities on this
 continent which everyone should see.
 Everyone should see New York be-
 cause it is the largest city in the
 world, and because it combines the
 magnificence, the wonder, the beau-
 ty, the sordidness, and the shame of
 a great metropolis everyone should
 see San Francisco because it is so
 vivid, so alive, so golden; everyone
 should see Washington, the clean,
 white splendor of which is like the
 embodiment of a national dream; ev-
 eryone should see the old gray gran-
 ite city of Quebec piled on its hill
 above the river like some fortified
 town in France; everyone should
 see the sweet and aristocratic city
 of Charleston, which suggests a mu-
 seum of tradition and early Ameri-
 can elegance; and of course everyone
 should see New Orleans.—Julian
 Street in Collier's.

The Courts

Divorce Petition.

Marie Ryan has filed a petition in common pleas court against Otto Ryan. They were married June 6, 1916, and the petition alleges that he has been guilty of extreme cruelty, charging plaintiff with infidelity, calling her vile and indecent names and has been cross and ill-tempered; that she has been guilty of gross neglect of duty and that plaintiff has been compelled through her own efforts to earn her own livelihood, although defendant makes from \$15 to \$19 per week. Plaintiff asks for a divorce, permanent alimony and all proper relief.

Justice Scott's Court.

Mrs. William Hunt of Buckeye Lake, O., pleaded guilty yesterday in Justice Fletcher S. Scott's court to the charge of selling fish illegally and was fined \$50 and the costs, the fine being suspended upon promise to refrain from any future offense. This case has been in the courts for a couple of weeks, Mrs.

Hunt having been charged by a deputy state fish and game warden in an affidavit with a violation of the fish laws. The state sent an attorney here on several occasions, only to have the case continued. Yesterday two attorneys were over from the attorney general's office. However, justice has been satisfied in the conviction of a woman but the men will continue to catch the fish illegally just the same as long as there is water in the lake. Game wardens have endeavored to stop the practice, and they have succeeded to a certain extent, but it is a hard matter to secure a conviction unless caught in the act.

Road Hearing.

The county commissioners late yesterday afternoon gave their decision in the Billman road case, awarding compensation and damages to the amount of \$625, to be paid by the petitioners before the 15th of the month. The road is located in Eden township near Rain Rock.

Our Boys and Girls

After a bilious attack or any other kind of stomach trouble when a child cannot digest the yolk of the egg, it is possible to make the needed albumen more palatable by poaching just the white, removing the yolks before the white is dropped into the poacher. Of course this can only be done in the transition period after the albumen water (raw white shaken up in water) is no longer strong enough.
Those who have babies generally know how to make albumen water, but for the benefit of those who do not know, the proportion depends upon the age of the child. The usual formula for older children is the white of one egg shaken up in a glass of water, put on ice or served with ice chopped in it. It is, of course, more palatable with a little orange juice. If the doctor will allow it.

A refreshing drink for sick persons is the white of egg shaken up in two-thirds of a glass of water, mixed with the juice of a whole orange and half a lemon, with a little cracked ice. The acid cuts the albumen and prevents the stringiness, besides adding a delicious flavor cooling to a fevered throat.

Moore—Barcus.
The marriage of Miss Goldie Barcus and Mr. Allen Moore, both of Utica, has just been announced. They were married in Kentucky, April 27, 1917, being quite a surprise to their friends and relatives.

Huston—Blaney.
The marriage of Miss Clara Blaney and Mr. Ho D. Huston took place on Wednesday afternoon at 2 o'clock at the parsonage of the First M. E. church, Rev. L. C. Sparks officiating. Mr. Huston is employed in Akron and they will make their home in that city.

The Elite Crochet club was delightfully entertained at the home of Mrs. George Hamilton on Thursday. After the regular business meeting the afternoon was spent in crocheting and contests, after which a delicious lunch was served. The lucky contestants were: Mrs. C. Wendelken, Mrs. Clyde Alexander and Mrs. Jesse Miller. Mrs. John Bucy was taken into the club as a new member. The invited guest was Mrs. Bernice Webber. The next meeting will be held at the home of Mrs. Henry Froelich.

The home of Mrs. W. C. Gardner in Hudson avenue presented a pretty scene on Wednesday afternoon, with the rooms resplendent in the national colors and groupings of American flags. The A. F. F. W. entertained with a benefit card party and a tea to secure funds for the American Hospital work in France, and the members of the organization assisted the hostess in entertaining the guests.

Jonquils were used in profusion throughout the rooms and in the living room a large French and American flag were used. In the card game, Mrs. William Schroeder received the trophy. A number of women assembled during the afternoon and \$25 was realized for the work.

Mr. and Mrs. J. J. Stullion entertained the following guests on Sunday at their home, Mrs. Mary Stewart and son Alex, Miss Ruth Nutter, Miss Hazel Stullion and Mr. Alex. Samuelson of Terre Haute, Ind.

Wright—Redman.
Mr. Austin Wright and Miss Helen Redman were united in marriage at the parsonage of the East Main Methodist church on Wednesday evening at 7:30 o'clock. The pastor, Rev. J. Emory Walter performed the service. Edwin J. Wright, a brother and Miss Retta Coon accompanied the young people. Mr. and Mrs. Wright will make their home in Newark.

A few friends and the family of Mr. M. Schonberg completely surprised him Tuesday evening at his home in Hudson avenue, the occasion being his fifty-fourth birthday anniversary.

Cards and music furnished the amusement for the evening and an elaborate dinner was served. Mr. Schonberg received a number of gifts and telegrams of congratulation. The out of town guests were Mr. and Mrs. A. A. Aaron and Miss Leah E. Kohn of Columbus.

The Whatsoever Circle of The King's Daughters will meet at the home of Mrs. T. M. Rugg in North Fourth street on Thursday evening at 7:30 o'clock.

The Board of Managers of the City Hospital will meet on Friday evening at the home of Mrs. W. H. Davis, in Hudson avenue. The hour for the meeting is seven o'clock.

Miss Rachel McLaughlin was hostess to the members of the U. K. club Tuesday evening at her home in West Church street. During the business session two new members were received, Misses Helen Holmes and Charlotte Andrews. The Misses Bernice Mullenix and Edith Mason sang several solos being accompanied on the piano by Miss Loraine Chenevorth. Music and games followed after which a delicious two-course luncheon was served. A color scheme of orange and gray prevailed throughout the rooms. The guests were Misses Bernice Mullenix, Loraine Chenevorth, Edith Mason, Charlotte Andrews, Helen Holmes, Marguerite Mullenix, Hilda Schmidt and Lucille Compton. The next meeting will be held May 14.

Today's Beauty Help.

We find you can bring out the beauty of your hair to its very best advantage by washing it with canthrox. It makes a very simple, inexpensive shampoo, which cleanses the hair and scalp thoroughly of all the dandruff, dirt and excess oil, leaving a wonderfully clean, wholesome feeling. After its use you will find that the hair dries quickly and evenly, is never streaked in appearance and is always bright, soft and fluffy; so fluffy in fact that it looks more abundant than it is, and so soft that arranging it becomes a pleasure. Just use a teaspoonful of canthrox which you can get from any good druggist, dissolve it in a cup of hot water, this makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head.

Milady's Boudoir

Again this summer we shall have the short sleeves in gowns if Dame Fashion's demands are heeded—and of course they will be, for who would dare to defy her majesty? This makes beautiful arms a necessity, and if yours are not well-rounded you should improve them by a course of treatment.

The elbows should be considered first, for only one woman out of fifty has pretty elbows. If the skin is rough, and the joint prominent, I suggest that you first scrub the elbow thoroughly with a complexion brush and pure soap. Use a stiff brush and plenty of hot water, and follow this treatment daily.

After vigorously scrubbing the joints, dry them carefully, and while the surface is still warm and the pores open apply heated almond oil. To do this properly place a few drops in the palm and rub it over the elbow until it is absorbed. Repeat this until the skin will absorb no more.

On some arms they may appear a disfiguring eruption, which in many cases is due to lack of circulation and, in time, will make the skin smooth and beautiful.

Arms that are red and rough require more careful treatment, for they must be bandaged every night. First scrub them with a complexion brush, and when thoroughly dried, bandage with strips of old linen (four or five inches in width), saturated with slightly heated almond or olive oil. Be careful not to draw the bandages too tightly about the arm. Also remember that unless every particle of water is removed from the surface of the skin the oil will not be absorbed.

The Beauty of the Eyebrow.

When Milady sets out with assiduous vehemence to transform herself into a rare beauty by the aid of cosmetics and other secrets, founded sometimes on facts and sometimes on fancies she little realizes the importance of the eyebrows and lashes, not knowing that they contribute much to the expression of her face. Scraggly of course, bushy eyebrows suggest a careless, ill-tempered disposition, while well-arched graceful brows, will create the impression that you are amiable and trustworthy.

The brows should be brushed often, always in the direction in which the hair grows, if you would possess well-groomed eyebrows. The perfect brow is wide toward the nose, beautifully arched and tapers off to a sharp point. The hair should grow short and thick, but not coarse, and it should lie flat against the forehead.

The eyelashes may be made to grow if clipped once a month. This should be carefully done, however, or they will become coarse. It is best to ask some one to do the clipping for you. Each hair that appears bent, split or cut, is clipped at the end. Cutting the lashes in a straight line is inexcusable, and would only insure coarse, stubby lashes. Be sure that your eyelids are in a healthy condition, for often this is the cause of unattractive lashes.

Opportunity is an alarm clock that enables a man to rise from the ranks.

FLUFFY FRILLS.

White voile with three clusters of white net frills will make you a charming summer frock. If you fashion a surplice, put brets on it, like up your sleeves and then place quaint little spots of cherry velvet ribbon as indicated you will have a bodice that matches the pretty skirt.

Every Day Etiquette

"What is a graceful way to eat an orange," inquired Sarah.
"An orange may be cut in four pieces, the skin drawn off, the seeds pressed out, and each quarter served twice," answered her sister.

"What are appropriate gifts to send a baby when one has received announcements of its birth?" asked an old bachelor.

"A silver spoon, a mug, a rattle, baby pins or studs, or a dainty necklace," suggested his sister.

In a hand-to-hand conflict at the front there isn't even space to read between the lines.

JUST FOR WEAR.

A serviceable hat is this navy rough straw trimmed with French blue narrow velvet ribbon and floppy white toques set on the crown to box the complexion. Streamers are coming in, it is said.

Keep Your Hair and Scalp Clean

If you want a good healthy growth of hair care should be used in keeping the scalp clean, free of dirt, dust and dandruff. Do not use cheap soaps or shampoos that contain too much alkali as they are liable to dry the scalp and make the hair too brittle. For steady use the best thing is kreamol, a liquid which you can secure at almost any drug store. It is very cheap as a four ounce bottle will be sufficient to last a family for several months.

To cleanse the hair and scalp thoroughly, simply moisten the hair with water and rub in the kreamol. One or two teaspoonfuls will make a rich, creamy lather and it is very easily rinsed. The hair dries quickly and evenly and leaves it fine, bright, fluffy and easy to care for.—Adv.

Kreamol is Sold at Evans' Drug Store (Warren Hotel Block), Newark, Ohio, and Ulman's Drug Store, Granville, Ohio.

FLUFFY FRILLS.

Easy Way to Get Rid of Itching

Don't worry any more about that itching skin-trouble. Just get a jar of resinol ointment and a cake of resinol soap at any drug store. With the resinol soap and warm water bathe the affected parts thoroughly, until they are free from crusts and the skin is softened. Dry very gently, spread on a thin layer of the resinol ointment, and cover with a light bandage if necessary to protect the clothing. This should be done twice a day. Usually the distressing itching and burning stop with the first treatment, and the skin soon becomes clear and healthy again.

Choosing Your Shampoo Soap.
If you select a soap that contains soothing, healing properties like the resinol balsams in resinol soap, you are not likely to have trouble with dandruff, loss of hair or itching scalp. Ideal for the youngsters' heads.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets. These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place. Most headaches, "dizziness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

You will find, in all probability, an accumulation of tartar on the enamel and bits of food deposit hiding between the crannies. **YOUR DENTIST PRICE** does not **FULLY CLEAN!** Loss or teeth is caused usually by one of two conditions—Pyorrhea or decay, both of which develop, as a rule, only in the mouth where germs laden tartar is present.

SENRECO, the recently discovered formula of a dental specialist, is two-fold in its action. First, it **REALLY CLEANS**, embodying specially prepared, soluble granules unusually effective in cleaning away food deposits. Second, it is particularly destructive to the germ of Pyorrhea. Yet it is perfectly safe, containing neither injurious chemicals nor hard grit.

ASTONISHING RESULTS FROM RHEUMATIC REMEDY

Eases Pain—Soreness, Swelling, Stiffness Taken Out of Joints and Muscles.

Rheumatic plasters, liniments, salves, oils, baths and scrums have proven ineffective in the treatment of rheumatism. They have failed because the condition causing the intense suffering and agony is deep-seated and only internal treatment that seeks out the cause—roots it out—dissolves it—banishes it entirely from the system—can afford any true relief or affect a real, lasting cure.

For 26 years Dr. Whitehall's Rheumatic Remedy has been before the public. Thousands of sufferers from rheumatism in its many forms have obtained the relief they sought by taking this old and reliable remedy. Rheumatic aches and pains in legs and backs have vanished, soreness and swelling have been taken out, stiff joints have been limbered, crutches have been thrown away and canes discarded.

Dr. Whitehall's Rheumatic Remedy goes straight to the seat of trouble. Its purpose is to dissolve uric acid and other poisons causing pain, swelling and stiffness—to cleanse the system of these health-destroying forces and restore health and strength. The many years this preparation has been on the market and the great number of men and women who have had their pains and aches eased through its use is mute testimony of its value. All druggists sell Dr. Whitehall's Rheumatic Remedy, and a 50c box undoubtedly will give great relief, even in aggravated cases.

HOLLWEG STILL SUBJECT OF ATTACK BY BERLIN PAPERS

(ASSOCIATED PRESS TELEGRAM)

Copenhagen, via London, May 3.—Such German newspapers as are now permitted to reach here, although evidently carefully selected for the absence of military news or any information in regard to the strike movement, indicate that the campaign against Chancellor von Bethmann-Hollweg is again in full swing. The Conservatives although insisting as usual that the other parties observe a political truce in the interests of the Fatherland, have adopted and published a set of resolutions sharply attacking the chancellor for weakness and vacillation on the peace question and in dealing with the strike agitation.

The resolutions express grave grief and concern at the steadily growing influence of the Socialists, whose peace making efforts are declared to be leading Germany to the brink of ruin. Apparently, this attack was timed to coincide with the opening of the Reichstag and it is significant that the resolutions are endorsed by the free Conservative wing under Baron von Seydlitz.

Among the papers which are directing their fire against the chancellor are the Conservative organs, the Kreuz Zeitung and the Deutsche Tages Zeitung. They accuse the premier of endangering the monarchy and of sowing a course prescribed by the Socialists. The Berlin correspondent of the Hamburg Fremdenblatt, in a long survey of the situation declares that the political life of Germany is now passing through an era of strife and differences of opinion on external and internal questions, which daily grow more lively and of broader dimensions.

The writer says the dissatisfaction with the government's policy is growing in all directions and that reticence on peace terms is being used to sharpen mutual suspicions and the antagonisms of the parties. The Socialist leaders, he continues, do not hesitate to explain and justify the latest strike movement on the grounds of the delay in reforming the Prussian franchise.

BRITISH WANTED U-BOAT CHASERS FOUND VERY FEW

(ASSOCIATED PRESS TELEGRAM)

Washington, May 3.—That the submarine menace and ways to combat it by increased shipping, freight selection and naval cooperation is the main interest of the British mission became certain today from many different sources. The issue was focused by Premier Lloyd George's statement in Parliament recently that the needs was for ships and still more ships; Lord Percy's explanation here that destruction was outrunning construction; and declarations of Secretaries Lansing and Lane that the submarine situation is grave.

It is now evident that other matters before the British commission, however vital, are being subordinated.

The British naval officers in coming to the United States hoped to get a considerable number of small boats to use as submarine "chasers" but they have been disappointed to discover that the few available are needed here. The British shipping experts, however, have found encouragement in the energetic efforts shipping board and the availability of many German ships.

Proposed curtailment of non-essential freight now being carried to Europe would give increased tonnage for necessary supplies. The

American government has agreed not only to restrict imports, as the British already do, but to impose export restrictions, authorized by the bill now pending in Congress.

One of the greatest uncertainties of the situation is a total ignorance of the number of U-boats Germany is building. Admiral De Chair has estimated this at two or three a week, but many officials here believe it possible to turn out many more on standard plans.

CHICAGO BAKERS RETURN TO WORK, GET WAGE INCREASE

(ASSOCIATED PRESS TELEGRAM)

Chicago, May 3.—The 2,000 bakers who have been on strike since Saturday prepared today to resume work early tomorrow, an agreement for a settlement having been reached last night by representatives of the bakers and the employers at a conference in the office of United States District Attorney Charles F. Clynne.

The agreement entered into at the conference is binding upon the employers but must be ratified by men on strike before it becomes effective. A ratification meeting has been called for today and it is said there is little doubt that the strikers will immediately agree to the terms and will return to work Friday Morning.

According to the agreement, the men are to receive the \$2 a week increase in wages asked for. Every striker is to go back to his old position without prejudice.

The bread situation, even with the bread makers practically settled, is however, not completely cleared up. More than 250 bread wagon drivers, who struck May 1 for increased wages, are still out.

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief For Acid Indigestion.

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food, are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach causing the formation of gas and acids.

Gas distends the stomach and causes that full oppressive burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excessive development or secretion of acid.

To stop or prevent this souring of food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisurated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating, or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antacid, such as bisurated magnesia which can be obtained from any druggist in either powder or tablet form enables the stomach to do its work properly without the aid of artificial digestants. Magnesia comes in several forms so be certain to ask for and take only Bisurated Magnesia which is especially prepared for the above purpose.

PHYSICAL EXERCISES NEEDED TO TRAIN OUR YOUNG MEN FOR MILITARY DUTY

Only One Applicant Out of
Eleven Is Accepted by Med-
ical Examiners of United
States Navy.

Plans Being Made For Co-op-
eration of the United States
With Its Allies In
the War.

WHATEVER part an individual may take in the nation's defense now since war has come, whether it be purely military, vocational or administrative, there is one fundamental common to all. That is the individual must be in good sound physical condition," says George J. Fisher, secretary of the physical department of the international committee of the Young Men's Christian association. "About this there is no question. Each individual, no matter what his assigned task, must be able to endure hardship, stand physical strain and be able to work hard without the normal amount of sleep and rest. Physical condition is the most fundamental requirement of preparedness.

"The average person—particularly the adult—is out of condition. His first need is to become physically fit. This was the great problem in Eng-

clises just after arising in the morning or just before retiring. In either case it should be accompanied with a very brief sponge bath. Then a coarse towel should be used and the body given a brisk rub from head to foot. The temperature of the water should be modified to suit the comfort of the individual.

"The five mile walk in the open air will be found invigorating. This, if it is desired, can be broken up into two or three parts, though there is an advantage after a little practice in taking the walk at one stretch. The majority of people will find it most convenient to get in their daily walking in connection with going to and from work.

"It should be said that this program should not take the place of more serious work such as vigorous out of door exercise and recreation, but rather should supplement it. Any

the state department for an important international war council to be held in Washington in the near future.

Although it was known in Washington that this council was being planned, the administration earnestly requested that nothing be published concerning it. The ban was not lifted until after the British government had permitted announcement to go out from London that Arthur J. Balfour, British minister for foreign affairs, was about to leave for the United States on an important mission.

It was another evidence of the fact, daily impressed on newspaper men in Washington, that the form of censorship the administration has in mind promises to be every bit as clumsy as that which in the early stages of the war placed impossible handicaps upon the British press.

The forthcoming council promises in many respects to be the most important assemblage of the kind held since the outbreak of the European war.

Not only, it is understood, is the conference to consider primarily arrangements for co-operation between the United States and the entente powers, but it is likely also to result in a general statement of the war purposes of the enemies of Germany in their bearing on future peace.

Other Notables Coming.

Besides Balfour, those expected to represent Great Britain at the conference will be Admiral De Chair of the navy and General Bridges of the army and the governor of the Bank of England, attended by a numerous staff.

In discussing privately the plans for the conference officials declared that

United States Government's Opening of Indian Land in South-Eastern Oklahoma

HAVE YOU EXERCISED YOUR GOVERNMENT RIGHT?—500,000 acres of rich agricultural grazing and timber lands in the greatest undeveloped oil territory in the United States to be thrown open to the public.

IMPORTANT POINTS—You do not have to live on the land. You do not have to improve the land. The land is close to railroads and market towns. No irrigation necessary, 40 inches of rainfall. You may acquire 160 acres of this land. It's your last big land opportunity. You obtain this land direct from the government.

Government Indian Land Demonstration Car No. 10

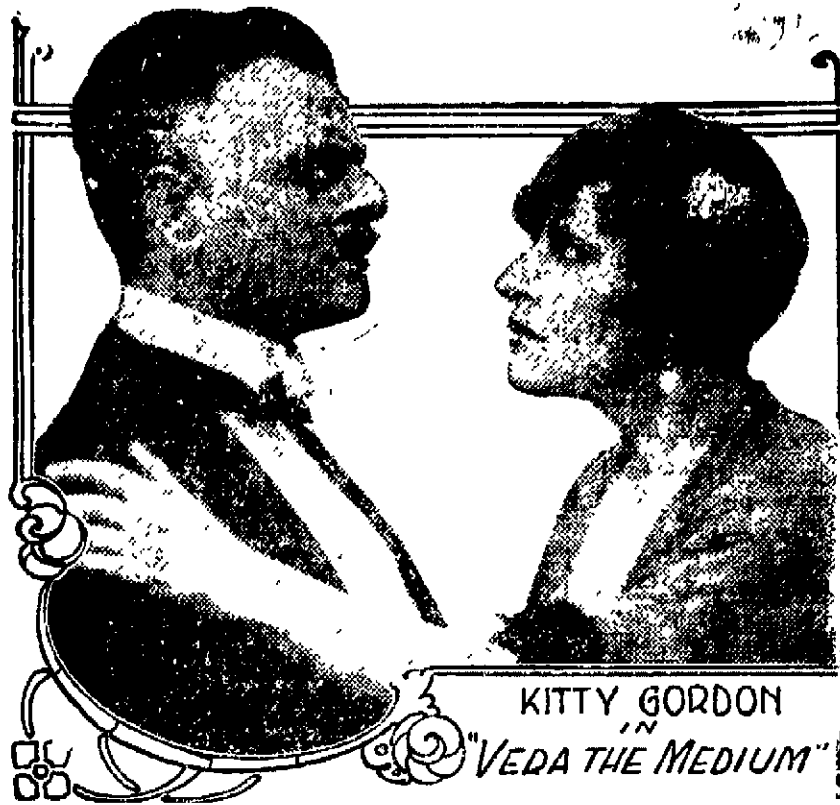

Under supervision of McAlester Exchange from McAlester, Oklahoma, is here to give you free information regarding the land and the method you pursue to exercise your rights. This opportunity is limited and immediate action is necessary.

Pullman car equipped with maps, plats, agriculture and geological reports and display of products in charge of skilled demonstrators now on B. & O. tracks at East Main street crossing. Hours 9:00 a. m. to 12:00 m., 1:00 p. m. to 5:30 p. m., 7:00 p. m. to 9:00 p. m. Car is on siding at East Main street crossing near Hulshizer mill for a few days only.

"VERA THE MEDIUM"

KITTY GORDON

THE WORLD FAMOUS BRITISH BEAUTY IN

"VERA THE MEDIUM"

FROM THE NOVEL BY RICHARD HARDING DAVIS

A STORY OF THE LURE OF WOMAN AND THE FOLLY OF MAN.

5c — NO ADVANCE — 10c

Amusements

AUDITORIUM.

"Vera, the Medium." The illustrious English beauty, Kitty Gordon will be seen in the first of the photoplay features produced by her own film corporation at the Auditorium theatre today and tomorrow.

The subject chosen for the first of Miss Gordon's new ventures is a most happy one, being that sprightly and thrilling novel, "Vera the Medium," by the late Richard Harding Davis. For years one of America's proudest literary possessions and famed throughout the world as a war correspondent. In "Vera the Medium" Miss Gordon essays a role that affords her every opportunity to make the most of her rich and exotic beauty as well as to adorn

original organization changed its name. A new play is being prepared for the next season and with it the name of the company is to be copyrighted to avoid impositions on the part of those who seek to trade upon the title of a company of national repute.

Manager Fenberg has arranged with the management of the above company to play Newark at popular price, that is, the matinee to be 25 and 50 cents, night 25 to 75 cents. Ladies will be admitted to the best seats down stairs for twenty-five cents, that is in advance.

The seat sale started Friday at 10 a. m.

Coburn's Minstrels.

Coburn's Minstrels will be the attraction at the Auditorium for matinee and evening on May 10th. This minstrel organization will be remembered from their engagement in

Carrie King of "Smarter Set," Auditorium Monday, May 7, Mat. and Eve.

herself in a bewildering array of startling costumes.

The plot of the story is one of mystery and thrilling adventures and as produced under the supervision of G. M. Anderson, the "Broncho Billy" of Essanay fame, the picture will undoubtedly prove a big drawing card wherever it is shown.

"Her Temptation."

The millennium has come! An actress has been found who does not try to take the whole and complete glory of a picture unto herself! She is Gladys Brockwell, William Fox star, and she has unreservedly thrown aside a chance to assume unto herself an entire photoplay.

When Richard Stanton and Miss Brockwell chose "Her Temptation" as the next picture they would make, Mr. Stanton offered the star the opportunity of playing a double role. She would have the part she now plays, that of Shirley, and role of the sister, Helen. After a careful study of the scenario, Miss Brockwell announced that she would be content with only one of the characters.

Miss Brockwell will be seen at the Auditorium in "Her Temptation," Saturday, together with Mrs. Vernon Castle in "Patria." In this episode Miss Castle does more thrilling stunts and she is sure to thrill all who see her this week.

Sunday Program.

Sunday, June Caprice in "A Modern Cinderella," a Fox feature, together with Charles Chaplin in "Easy Street," a two reel Mutual that is sure to get the laughs. Miss Blanche Thompson, leading lady with The Smarter Set Company, who fill an engagement at the Auditorium Monday, will be the soloist, singing several selected selections.

"The Smarter Set," which will be seen at the Auditorium next Monday is "How Newtown Prepared" with Salem Tutt Whitney and J. Homer Tutt in the stella roles. It is the only negro theatrical organization of note before the public at the present time. This is the same company that has appeared in this city before under the name of the "Smart Set."

This season the company changed its title for the reason that at least a half dozen cheap tent shows playing the same territory were appearing under the name of "Smart Set." Not wanting the public misled the

ALHAMBRA.

When "As Man Made Her" comes to the Alhambra theatre, tonight, the patrons of this theatre will have the pleasure of seeing Miss Gail Kane in a particularly pleasing part. This favorite actress is supported by an excellent company, including Frank Mills, Edward Langford and Gerda Holmes.

Friday and Saturday. The patio scenes in "The Cost of Hatred," the Lasky-Paramount production which will be seen at the Alhambra on Friday and Saturday, with Kathryn Williams and Theodore Roberts in the stellar roles, were filmed in the quaint old Spanish building near San Diego known as Ramona's Marriage Place. This building which is kept up by private parties, still retains the ancient Spanish beauty which existed before the white people came to California.

GEM.

When Mary Blake, an actress, was left stranded in the town, through sudden illness, she had a taste of Hillsdale charity—and Bluebird Photoplays have made engaging entertainment out of her experience. Under the caption of "The Honor of Mary Blake" at the Gem theatre on tomorrow Violet Mersereau will enact the role of Mary Blake, sick, friendless and among strangers.

BROWNSVILLE.

Mrs. Laura Saffie of Detroit, Mich., and Miss Anne Chappalier of New Lexington, O., visited Mrs. C. T. Kreager, the former's sister, over Sunday.

Miss Ada Orr is attending the spring term, at New Concord.

Mrs. Elizabeth Coe returned home Saturday evening, after spending a week with her son, Ed Coe of Gratiot.

Mr. C. G. Sheekherd spent Monday in Newark.

Mr. Everett Brown and family, and Mrs. Sarah Gless, visited Mr. Ray Henderson and family Sunday.

Mr. W. A. Shannon of the Browley party delivered a very interesting sermon on Wednesday evening at the Presbyterian church.

Miss Alice Smith, a pupil of the Brownsville High School, has been taken to the Good Samaritan Hospital at Zanesville for treatment.

Mr. G. A. Brown spent Tuesday on his farm near Mt. Sterling.

The Grammar, Intermediate and Primary schools closed Monday. The High School will continue for four weeks.

Mrs. Wm. Newton was shopping in Zanesville Thursday.

Rev. Wells and Rev. Ray will conduct services alternately at the Brownsville churches on Sunday evenings.

Flowers Without Petals.

Many showy flowers have no petals, but their places are taken by the sepals, as in the case of the lily and the tulip. Some flowers, so called, have neither that, are showy, but the bright colored parts are merely floral bracts. Bougainvillea, poinsettias and dogwoods are examples also the milk white spathe of the calla.

THIS STOPS HAIR

FROM FALLING OUT

Ever count the dead hairs in your comb and brush? They are nature's warning of future baldness, and proof that the dangerous dandruff germ is busy on your scalp. It was a famous Paris physician who first discovered that dandruff and falling hair are caused by a parasite. Then came the discovery of the value of Parisian Sage—liquid form—in destroying the dandruff germ and promptly preventing the further loss of hair. The effect of only three days' use of Parisian Sage is simply marvelous, and the American people have now awakened to the fact that they can so quickly rid of dandruff and save their hair by using Parisian Sage.

Parisian Sage is sold by W. A. Egan and other druggists everywhere. It is inexpensive, instantly perfume, free from stickiness, and will surely cause hair to grow soft, lustrous and really seem twice as abundant. Adv.

No One Should Have Gray Hair

NOBODY likes to use dangerous, dirty, sticky dyes, but no one wants to have gray hair nowadays. No one needs to. If your hair is gray all over, or just getting gray, or streaked with gray—or if it is faded out and lifeless—simply get a bottle of Q-Ban Hair Color Restorer. This is a harmless liquid, all ready to use. It is guaranteed to the limit by the makers to give satisfaction or your money back.

In a very simple, healthful way it brings back the natural

color to gray or faded hair, evenly and gradually (so no one can tell). Simply apply Q-Ban Hair Color Restorer like a shampoo and have beautiful, soft, lustrous hair in abundance and with never again a streak of gray. You will be simply delighted with your look of youth and vigor. Remember, Q-Ban is not a patent medicine, not a dye. Its work is certain, safe, and permanent. Only 50c at all good drug stores, or write Hedges-Edis Drug Co., Memphis, Tenn., mentioning drug store's name. Illustrated, interesting book "Hair Culture", sent FREE. Try Q-Ban Hair Tonic, Q-Ban Liquid Shampoo, Q-Ban Toilet Soap—also Q-Ban Depilatory, (odorless) for removing superfluous hair.

to 1038 Wilson street, where a couple
of sheds in the back yard burned to
the ground. The house is owned by
the Wehrle Company and is occupied
by foreigners. The firemen prevent-
ed the flames from spreading to it.
The loss being nominal. A woman
was drying clothes in one of them.
Moving to Wooster.
Mr. and Mrs. Fenwick Ewing,
who recently moved from Granville
street to Mansfield are changing
their place of residence to Wooster,
Ohio.
Red Cross Buttons.
Those who joined the Newark
chapter of the Red Cross before the
membership cards and buttons were
ready may obtain their cards and
membership buttons by calling at
headquarters, No. 16 Arcade.

Mushrooms Scarce.
Hail, snow and a cold rain are no
inducements to stimulate the growth
of mushrooms. As a consequence
the market has been draggy. It
snowed Tuesday morning and later
on it hailed and a cold rain fell.
Yesterday there were a few mush-
rooms on market, but they were
very few. Unless warm weather
comes at once with a few warm
rains there will be no more of the
delicious fungi.

Underwent Operation.
Mrs. Everett Eckleberry of North
Fourth street underwent an opera-
tion for appendicitis at the City
Hospital on Wednesday.

Goes After Tanguay.
Manager Geo. M. Fenberg is in
Columbus today endeavoring to ar-
range for the appearance of Eva
Tanguay and a number of acts later
in the season at the Auditorium.
Mr. Fenberg managed the Tanguay
company a number of years ago for
two seasons and made a big success
with it. If he can not secure the
peculiar Eva for the present season
he will endeavor to have her sign a
contract for next winter.

Still Alarm.
A still alarm called the members
of the Central fire department to the
city dumping ground in Sprague
street last evening where they
worked for two hours in subduing
the flames which had eaten down be-
low the rubbish piles.

Police Court.
Three out of town derelicts were
rounded up by the city patrolmen
during the night and this morning
in police court all pleaded guilty of
imbibing too freely. They were given
a fine of \$5 each and the tests in
the case and not being able to liq-
uidate will be guests of the city for
the next ten days.

Ran Needle in Finger.
Mrs. Charles Patton of West
Church street suffered a painful in-
jury when a sewing machine needle
penetrated her finger and broke off.
Dr. W. J. Kennedy was called and re-
moved the piece of imbedded steel.

Mayor Granddad Again.
Mr. and Mrs. Cecil A. Bigbee of
Hudson avenue announce the birth
of a daughter, this morning. Mayor
R. C. Bigbee is making a more or
less successful effort this afternoon
to attend to the duties of his office,
though he finds it difficult to refrain
from talking about the beauty of his
newest grandchild.

Brotherhood Dinner.
The last of a series of six monthly
suppers by the Brotherhood of the
Second Presbyterian church was
given last night, the speaker being
Hugh Diamond, of Gallion, O., who
also spoke at the first meeting of
the season last fall. Mr. Diamond
spoke on "Good Fellowship" and in-
terspersed his address with a num-
ber of good Scotch songs and several
splendid stories. The organization
voted to have six monthly meetings,
beginning next fall, and elected Dr.
Clark B. Hatch president and L. F.
Carl, secretary-treasurer.

Cornell Joins Reserve Corp.

nest Cornell of this city, has received
orders to report at Ft. Benjamin
Harrison at Indianapolis, May 14, to
begin the reserve officers training
camp. Mr. Cornell has been em-
ployed at Cleveland for some time
with the office force of the Goodrich
Tire company.

Rev. J. Ward Gamble of Delano,
N. J., is in the city, the guest of Mr.
and Mrs. C. L. Gamble of West
Church street.

OHIO NURSES LEAVE.
Upper Sandusky, May 3.—Two
professional nurses have been called
to France, and will leave tomorrow
night, sailing Saturday from New
York. They are Miss A. Agerter
and niece, Miss Helen O'Brien, the
former a daughter of an ex-country
auditor and the latter a daughter of
a wealthy chemist and both promi-
nent in society. They are nurses in
the medical division of the Cleveland,
O., Lakeside unit and are looking for-
ward eagerly to their assignment in
a new field of endeavor.

LEGAL NOTICE.
Charles A. Holler, whose place of
residence is unknown, is hereby no-
tified and will take notice, that on
March 17, 1917, in cause No. 18616 Del-
la C. Holler, wife of said Charles A.
Holler, commenced an action in the
Court of Common Pleas of Cuyahoga
county, Ohio, against said Charles
Holler, defendant, alleging that the
said Charles A. Holler, on February
27, 1917, disappeared and went to
parts unknown and has since remain-
ed away; that the said Charles A. Hol-
ler is the owner of the undivided half
of certain real estate located in May
Ann township, conveyed to him by
Alonzo C. Cochran and wife by deed
dated April 7, 1916, and recorded in
volume 231, page 240, in said county,
and also the owner of the undivided
half of certain personal property. Said
real estate as a whole is valued at
\$5000, and said personal property, as
a whole, at about \$1000. Said petition
prays that a receiver be appointed by
the Court to manage and protect said
real estate, prevent the same from de-
teriorating in value and that said real
and personal property be sold and the
proceeds applied upon the mortgage,
on the said real estate amounting to
\$2300; that said Court on March 17,
1917, appointed said Della C. Holler
as such receiver and she has qualified
as such and taken possession of said
Charles A. Holler's interest in said real
and personal property. Said defendant,
Charles A. Holler is notified that un-
less he answers said petition on or be-
fore the 24th day of May, 1917, that
judgment will be rendered in said case
as prayed for in said petition on the
24th day of May, 1917.

HALF MILLION IS OFFERED FOR WORK AMONG SOLDIERS

More than five hundred prominent business men from over the state of Ohio, were present at a dinner given at the Statler Hotel in Cleveland, yesterday to plan for definite work among the young men of Ohio who will be called into training camp soon. This conference was attended by many of the largest givers in the state and more than \$400,000 was pledged at this meeting. Cleveland alone pledged \$100,000 for this work and another \$100,000 for work in the prison camps of Europe. Dr. John R. Mott of New York, general secretary of the Y. M. C. A. of North America told these men of his two visits through all the prison camps and training camps of Europe since the war began. His story of the need of service in these camps touched the heart of every man. The Newark delegation consisted of Pres. C. C. Metz, Dr. C. L. Wyeth, C. Harrington Davis, A. R. Evans, J. Henry Miller, E. S. Randolph and Frank L. Johnson. These men joined the Columbus delegation and went to the "Sixth City" in a private car. Dr. C. L. Wyeth, C. Harrington Davis were elected to the Ohio War Work Council which will have in charge the handling of the funds and the promotion of the work among Ohio soldiers.

ALL WRONG

The Mistake Is Made by Many Newark Citizens.

Look for the cause of backache. To be cured you must know the cause.

If it's weak kidneys you must set the kidneys working right. This Newark resident tells you how.

George Land, prop. drayage business, 23 Buena Vista St., says: "I had just recovered from an attack of the grip, which left my kidneys in a weak and disordered condition. In the dray business, I have more or less heavy lifting to do and one day while stooping down to pick up something, I was seized with a sharp, shooting pain across my back that kept me in misery for several days. My kidneys were weak and I had to get up several times at night. The kidney secretions were highly colored. I went to the City Drug Store and got a box of Doan's Kidney Pills and used them. The pains in my back ceased and my kidneys got back to a normal condition."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Land had. Foster-Milburn Co., Props., Buffalo, N. Y. 4-30&5-3 (Adv.)

BROMLEY MEETINGS

(Continued from Page 1.) can commit suicide but you've got to account with God during eternity," he declared.

The evangelist denounced materialism as a curse originated by a bunch of third-rate scientists. He declared it wrong in all its principles.

Why wait until eternity is upon you to accept Christ, was the evangelist's plea. "God didn't expect man to refuse Him," said he, "that's why he didn't even prepare Hell for the sinners. Now if I could preach at a revival in Hell, I could get the whole bunch to hit the trail before breakfast."

When Evangelist Bromley issued the invitation, the converts were slow in coming at first, but soon his appeals began to have results and quite a number went forward. The audience was urged to attend the lecture on popular amusements, Thursday night at 7 o'clock sharp.

The biggest delegation last night was the Knights of Pythias, and the Pythian Sisters. The center section of the tabernacle was reserved for them and this was well filled.

Outside of the tabernacle the Sir Knights, in full uniform, formed a court of honor. This court was more than a city block long, and through it filed the Pythian Sisters into the tabernacle.

The battery of five drums headed the Sir Knights who, with drawn swords entered the building. The knights stood at attention in their seats.

When all the knights were in their seats, there was another round of applause as a half dozen color bearers and color guards came up a side aisle and walked to the front of the tabernacle with a steady soldier-like tread. The flag was saluted with sword and with hand and the entire audience was seated in a military style. David Swisher, the oldest Sir Knight, was called to the platform, and, after singing "America," the opening ode of the order was sung and there was a prayer. The turn out of the Knights of Pythias was the largest turn out of any order thus far during the entire campaign.

After the service last night, there was a prayer service held in the prayer room of the tabernacle and it was decided to hold prayer meetings nightly from now on.

At the Bible study class for public school teachers held yesterday afternoon there were 51 in attendance. This is the largest number present thus far at any Bible class for the teachers. Miss Fetterolf spoke on "The Second Coming of Christ."

The services at the tabernacle yesterday afternoon were largely attended. Rev. S. B. Gail, the assistant evangelist, preached a strong sermon drawing his lesson from the incident recorded by St. Luke of Jesus' sleeping over Jerusalem.

After the services, Miss Fetterolf taught the Bible class, her subject being "How to Study Prophecy." Today her subject was "The Second Coming of Christ," and tomorrow the subject is "Daniel."

Saturday afternoon Dr. Bromley will deliver the second of the series of addresses to women only and a large crowd is expected. Last Satur-

day afternoon there were about 3,000 women present at the services.

Sunday afternoon Dr. Bromley will preach his booze sermon. It is more of a lecture than a sermon and the subject of it is "Boys, Booze and the Water Wagon." At the request of a number of the women Dr. Bromley has decided to allow the women to attend the service as well as the men and there will be no meeting in the First M. E. church during the afternoon.

Sunday morning there will be no church services in the different co-operating churches, but all members will be requested to come to the tabernacle for the morning service instead. They will bring their church envelopes with them and place them in the collection pail at the tabernacle. They will then be distributed to the different church treasurers.

While women will be admitted to the tabernacle on Sunday afternoon to hear Dr. Bromley's famous booze lecture, it has been decided not to admit them till 2 o'clock so that all men will have a chance of hearing the lecture. It will be a case of men first for once.

After the tabernacle is filled an overflow meeting will be held in some near by church and it is just likely that the evangelist will repeat the lecture.

It was this lecture more than any other single cause that placed Bay City, Michigan on the dry side of the ledger, it is said.

The high school students are making elaborate preparations for the affair tomorrow night at the tabernacle when they will occupy seats of honor. They are preparing their yells and songs and expect to have a great time at the tabernacle.

This morning at Denison University the chapel hour was taken up by members of the Bromley evangelistic campaign. Miss Gladys Ditzell, Miss Rose Fetterolf, Prof. Frank Harris and Charles H. Wier went to the school and held a service there.

HOW FAT FOLKS MAY BECOME THIN

GET RID OF TEN TO SIXTY POUNDS

To be excessively fat is very mortifying. People who are too stout are usually sensitive on this subject. Style and fashion are sure to forsake them, people who are carrying around a burden of unhealthy and unsightly fat, will be glad to know that they may reduce their weight without starvation diet or tiresome exercises.

If you want to become thinner in a simple, safe and reliable way, here is a test worth trying. Spend some time daily in the open air, and get from the druggist a box of oil of korein capsules; take one after each meal and one before retiring at night. Also follow the other simple directions that come with the box.

Weigh yourself once a week so as to know just how fast you are losing weight, and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take and costs little. A testing sample, with book, will be mailed free, in a plain envelope, if you write to Korein Company, 2122 Broadway, East 21st Street, New York, N. Y.

Even a few days' treatment has been reported to show a noticeable reduction in weight, with the flesh firm, the skin smooth and the general health improved.

If you are ten to sixty pounds over normal weight, you should give this treatment a trial. You will likely find it is just what you need. Adv.

DISTINCTIVE SHOES

Shoes that reflect the spirit of '76' in quality and '1917' in style, fit and comfort.

Shoes that will give you service, and because of early purchases, prices are less than they would ordinarily be.

Treat your feet to a pair of distinctively styled shoes to wear the coming season. Join the army of good dressers who believe in preparedness.

It's just about the right time to unarm the feet that have been warmly "shod" up all winter and slip them into the cooler and more comfortable warm weather footwear.

TAX RETURNS STILL COMING IN; NEARLY 20,000 RECEIVED

County Auditor J. W. Hursey stated today that out of a total of 21,000 tax return blanks sent through the mails to tax payers, a few less than 200 could not be delivered through postoffices over the county, caused by death and removal during the past year. Nearly 13,000 were sent over the county and 8,000 to Newark. Although the time limit for making the returns ended Monday at midnight a number are still coming in.

The assessors will meet next Monday morning in the convention room of the court house to take up the work of going over the returns and to receive their instructions from the county auditor. They will then take returns from their taxing district and examine same carefully to see that the new law has been complied with and if they believe improper returns have been made it shall be their duty to examine into the matter and make the proper return and add the penalty provided by law. The new system has not been taken kindly by the county residents as it has caused them to leave their work to call at the auditor's office and make their returns.

Their Specialty.
I see there is some talk about putting the Indians to plant farms. I suppose then, they will take the Digger Indians.—Baltimore American.

Minor Tells How Tanlac Built Him Up.

GETS BACK HIS APPETITE

His work in the Valler Coal company's mine is easier for Frank Wilden, 639 John street, Coxsack, since he has been taking Tanlac.

"I was all run down," said Mr. Wilden. "My muscles and joints were sore, and they gave me great trouble. No matter how tired I was I couldn't sleep soundly, so I got up feeling draggy and all worn out."

"My whole system seemed to be out of order. My stomach bothered me and my appetite was poor. Since taking Tanlac, however, I feel fine. I sleep soundly and feel well rested in the morning. The pains have left joints and muscles, and I don't get tired so quick now. My stomach is in good shape and my appetite is fine."

"I am glad to say a good word for Tanlac because it did me so much good."

Tanlac is a vegetable tonic. It is especially designed to aid digestion, promote healthy, refreshing sleep and make the muscles strong. Roots, barks, herbs and berries from many parts of the world are subjected to a process which extracts their medicinal virtues in concentrated form. Get it today. It will do for you what it has done for thousands of others.

Tanlac may be obtained in Newark at W. A. Erman's drug store and in the following nearby towns: Alexandria, C. M. Gilmore; Patuxent, J. B. Strine; Granville, W. P. Ullman; Hebron, Hebron Drug Co.—Advertisement.

Silent Activity.

Caller—That new girl of yours seems nice and quiet.
Hostess—Oh, very quiet! she doesn't even disturb the dust when she's cleaning the room.—TH-Bits.

Granville

[Special to The Advocate]

Granville, May 3.—A delightful treat was enjoyed by the audience which heard Orley See, violinist, in Recital Hall Wednesday evening. He has gained in breadth of conception and in technical skill since last heard in Granville and his performance last evening placed him definitely in the artist class. The orchestral accompaniment of 20 pieces for the Nardini concerto directed by K. H. Eschman was played with spirit and quick responsiveness. In the Sonata for violin alone, Mr. See displayed wonderful mastery over the instrument and received a hearty recall. In the remaining numbers with piano accompaniment by Mr. Eschman, Mr. See was repeatedly recalled but gave no encores. It is safe to say that an announcement of his appearance here at any time in the future, will be sure to fill the hall.

Mr. and Mrs. James A. Huston entertained at dinner Wednesday evening at "Wilkenheim" on the Columbus road, in honor of the Winter Picnic club of twenty-five members, their husbands and house guests. The rooms were brightened with decorations of spring flowers, and a spirit of good fellowship prevailed. Dinner was served at tables placed in the several rooms, at which covers were laid for fifty. The evening was delightfully passed with music and charades. Mrs. J. W. Rohrer, soprano, favored the company with a group of songs exquisitely rendered, accompanied by Mrs. R. S. Cowell, at the piano. Out of town guests were: Mr. and Mrs. Will Green of Columbus, recently returned from California; Mrs. Katharine Spencer of Dayton, and Miss Irene Jones of Newark.

It is difficult to ascertain the exact number of Denison men who have enlisted and been accepted. Robert Sutton of the Junior class has enlisted in the light artillery. Arthur Coulter has also enlisted in the light artillery and has gone to Columbus where he awaits orders for camp. It is said that four have enlisted in the hospital corps.

Eta Theta Pi entertained at dinner Wednesday evening at Curtis Hall. Covers were laid for twenty-four.

Dr. and Mrs. J. D. Thompson, Vir. and Mrs. Will Green were in Alexandria, Indiana, this week, where they attended the funeral on Tuesday of Rev. George Little, son of Rev. Jacob Little, who for forty years was pastor of the Granville Presbyterian church.

The Denison Glee club left today on concert tour to Port Clinton and Sandusky.

For a Clean, wholesome, cheery effect in the home, nothing quite equals this most elastic of all white enamels.

SPARTANITE

THE ENDURANCE ENAMEL

In the bath and bed rooms it produces an effect that is almost ethereal in its purity. In Hospitals and Hotels, or wherever snow white durability is desired SPARTANITE has never been surpassed.

SPARTANITE is not an imported enamel. It is made right here in America, from American materials and we are willing to have it subjected to the most rigid comparative tests alongside of any enamel from any country.

Specify SPARTANITE. A trial by any practical painter will bring the right answer. Spartanite may also be had in "Old Ivory" and many beautiful colors.

Spartan Art Wall Finish

The most artistic wall finish so far produced. A washable oil paint that comes in sixteen distinct tints, and in the production of which supreme quality was the first consideration.
